# Wingold GENERAL CATALOG

**PRESENT MARKET CONDITIONS** under the existing conditions it is impossible to guarantee prices for more than a very short period. While we have contracts for large quantities, and expect to obtain delivery of enough merchandise to fill every order received at prices quoted in this catalog, there is still a possibility that our factories may fail to some extent. The difficulty is to obtain raw material and supplies in sufficient quantities to cover our demands. On items which change rapidly our prices are marked subject to change without notice—we cannot do better than give you the lowest market price the day your order is received.

We reasonably expect to be able to maintain our present prices until Jan. 1st, 1918, and longer if our stocks hold out, but in case of a big advance in cost we reserve the right to refund your money should you not care to pay a higher price than the one named in this catalog. A **BIG SHORTAGE IS ANTICIPATED IN STOVES, RANGES AND HEATERS.** There have not been enough stoves manufactured this season to fill the requirements. The shortage will become acute as the season advances. We advise you to place your order at once while present prices prevail, and while you can get prompt delivery.

It has been stated by some who profess to have a knowledge of present conditions that within eight months there will scarcely be a stove or range made in Canada. All surplus stock of raw materials is exhausted and the exportation of steel and coke from the U.S.A. is governed by the demands of the War Department. When these materials are not needed for munition purposes, their exportation to Canada is allowed.

## WINGOLD TO-DAY PRICES

are based on costs existing a year to 18 months ago. Anticipating present conditions we made contracts for vast quantities of merchandise at the old low prices. While the stocks on hand at Winnipeg and at our factories last, you can save 25 to 40 per cent. on the cost of merchandise listed in this catalog. Wingold present prices are fully 25 to 40 per cent. less than to-day's market values.

## DON'T DELAY, ORDER EARLY

We don't want to disappoint a single customer, but the demand is going to be so great when the public discovers the existing shortage that we will be almost swamped with orders. We are trying to take care of our old friends and customers as best we know how, and trust they will appreciate the timely suggestion and place their orders as early as possible. The Wingold Company are anxious to be of the greatest possible service to you and ask your kindly co-operation during these trying times.

Yours very truly,

F. B. BLANCHARD, President and General Manager

## This Catalogue Cancels all Previous Prices Seasonable Merchandise

**THIS CATALOG PLACES BEFORE YOU** the newest and best of seasonable merchandise for 1917-18.

You Will after careful study and comparison realize that our prices are the lowest for reliable high grade merchandise. Right in the face of greatly increased costs. We come to you with prices that save you 25 to 40 per cent. **OUR PRICES ARE NOT MADE LOW BY REDUCING THE STANDARD OF QUALITY** (a method which many firms resort to), but by elimination of unnecessary expense and economical methods of distribution. We are satisfied with a very small profit and give you the full benefits of all the special privileges which we enjoy, through our extremely low prices.

**SOME OF YOUR BUSINESS** is what we want. We ask it on the basis of better value in return for your money than you get elsewhere. If you have done business before you know that the quality of Wingold Merchandise is away above any other mail order house. If you have yet to make our acquaintance, you will be pleased with the style and quality of our merchandise and our low Prices.

**TO SATISFY YOU** that's our aim. To make every transaction both pleasant and profitable is our duty. Our Business existence depends on it. We have grown from a very small beginning into one of the Largest exclusive Mail-Order Houses in the City of Winnipeg. A Greater Part of this large business comes from our old Customers or from their friends on the customer's recommendation.

**THE FINAL CONVINCING EVIDENCE** is found in the quality of the merchandise which we deliver. We have satisfied thousands of others and we can satisfy you.

**NEW HIGH QUALITY** merchandise will do it. Every item shown in this book is depicted as plain and clear as we can make it with a view of conveying to a true idea of its appearance, construction, and true value.

**BEFORE YOU MAKE ANY PURCHASE** it will pay you to consult this catalog freely. Remember that with our low prices there is a Higher Standard of Quality than is usually maintained by other firms.

## This Guarantee Protects You

Here is the Guarantee which makes every penny you send us as safe as if it were in your own hands.

We Guarantee Every Article in this Catalog to be exactly as described and illustrated. We Guarantee that any article ordered from us will please you, and that it will give you the service you have a right to expect; that it represents full value for the price you pay.

If for any reason you are dissatisfied with any article you receive from us you are at liberty to return it at our expense.

We will then exchange it for exactly what you want, or will return your money, including transportation charges paid by you.

**THE WINGOLD CO., LIMITED**

## PRICE and QUALITY

**WE DO BUSINESS** with the idea that price and quality go together. We never sacrifice quality for price, but we frequently sacrifice price for quality. It is always economy to buy good furniture, it lasts longer and retains its appearance to the last. Don't fail to look over the Wonderful offerings in this catalog. You will be pleased with many of the new designs shown this season, and the amount of money you can save will be a pleasant surprise. Prove our ability, just look through this catalog and note both quality and price. You will find durability, economy and satisfaction.

### Remittances

**SEND** a Bank Money Order or Post Office Money Order or send the cash by Registered Letter. Do not send Personal Cheques unless you add 25 cents to cover the cost of exchange.

### C.O.D Shipments

**ANY** article listed in this catalog will be sent C.O.D. subject to examination if a deposit of 25 per cent. of the catalog price accompanies the order.

### 30 Days Trial

**30 Days** use of any article you buy is the best proof of our confidence in Wingold Products. Our willingness to accept the risk ought to convince you that our merchandise is everything we claim it to be.

## You are Safe in Dealing With Us

Every order sent to us is accepted with the understanding and agreement that if not in every point satisfactory the goods can be returned to us at our expense and the money paid will be refunded.

### FREE TRIAL OFFER

The best proof of our confidence in our products is our 30-day free trial offer. By this plan you can judge for yourself of the value of the goods. You do not have to depend upon descriptions or pictures; you have the articles in your own home for 30-days, and when you are satisfied that every claim that we make for our goods is true—and not till then—do you have to decide to keep them. Were we not perfectly convinced that in quality and style our products are beyond question we could not afford to take the risk of sending out such large quantities of fine furniture subject to approval after 30-days usage.

### OUR CATALOGUE

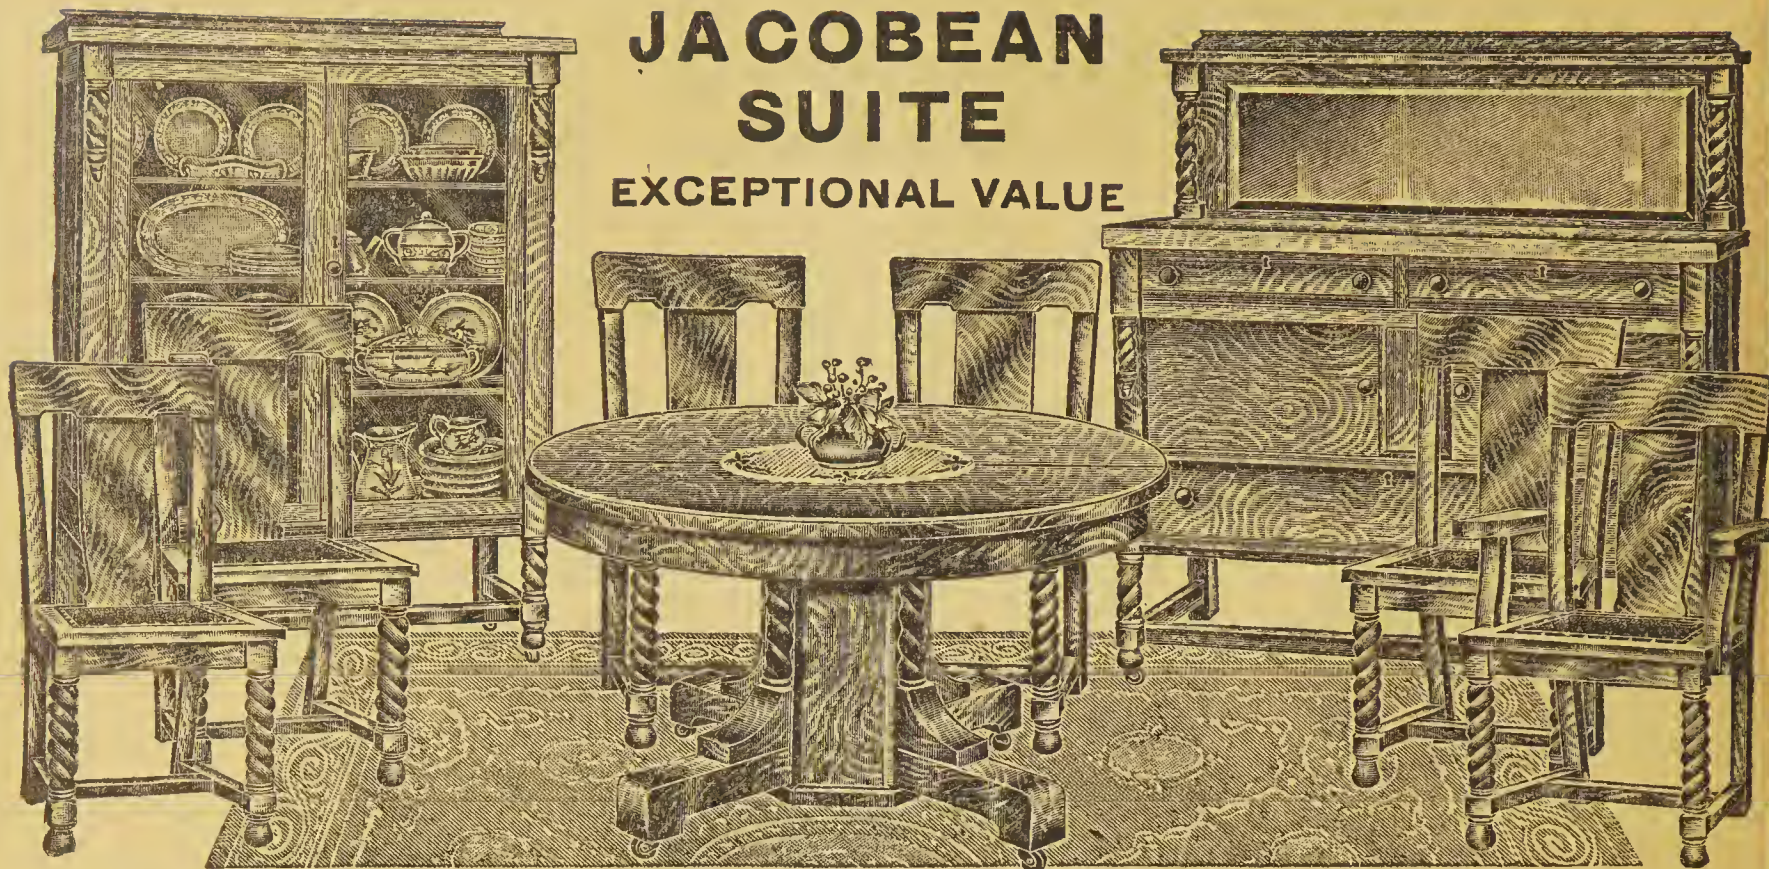

Every article shown in this catalogue has been carefully selected before being offered to the public. Accurate illustrations have been prepared so that customers may see exactly the appearance of the various items before ordering. We make it a point to satisfy our patrons, and we pay the strictest attention to all materials, workmanship and finish that are put into the goods we sell. Only such articles as we can personally recommend and positively guarantee are to be found in these pages. In its broad range of offerings, its pledges of standard quality and its net guaranteed prices this catalogue should insure you great money saving opportunities. Quality has been our watchword in the selection of each and every article for which we solicit your orders. Compare the prices given in this catalogue with the prices of the same quality of goods offered by other houses, and we think you will not fail to see for yourself that by dealing with Wingold's you will save money. Our prices are the same to all. They have been brought down to the lowest possible margin, and there can be no deviation from these figures. We are just as anxious to give you bargains as you are to receive them. We want you to have confidence in us and we assure you that the same will not be misplaced.

## Concerning Our RELIABILITY

**THERE** is no risk in sending money to Wingold's. We are not a new, untried concern. For more than ten years our products have gone into hundreds of thousands of homes in Western Canada. The superior quality of our merchandise is well known, and our reputation for honest dealing is firmly established. Ask your banker or any Winnipeg banker about our reliability and you will find that we have an enviable reputation for upright dealing.

Read our guarantee, ask any of our customers that you may know about us, and you will be convinced that it will be to your advantage to choose from this catalog some of our many money-saving bargains.

# JACOBEOAN SUITE

EXCEPTIONAL VALUE

Here is a suite that is strictly up-to-the-minute in design, and one that will appeal strongly to your good taste. Jacobean style with rope twist trimmings. Material and workmanship the very best. Made of selected genuine quartered oak in the dark brown old oak finish. In buying this dependable suite you know that you are laying in something that is going to last. The rope design presents an especially rich appearance. BUFFET is artistic, roomy and practical. Made of quartered oak, dark brown finish. Fitted with heavy planked top, 48 in. wide and 22 in. deep. Two cutlery drawers, spacious cupboard and large linen drawer. Heavy plate mirror 12x40, with shelf above supported by rope pattern pillars. Legs of rope design connected by strong, smooth braces, wood knobs, good locks and casters.

China Cabinet is particularly handsome, standing 64 inches high and 41 long. Made of quartered oak in dark brown old oak finish, embellished with carvings in rope design. Ends and door fitted with double strength glass shelves grooved for plates; rope pattern, legs joined by braces.

Extension Table in massive design, solid quartered oak, dark brown, old oak finish, square pedestal, handsomely ornamented with rope twist carvings. Heavily shapely legs. Diameter of top 45 inches. A high grade table of distinctive style, beautifully finished, 6 ft. extension.

Chairs solidly built of genuine quartered oak, dark brown old oak finish, firmly braced. Legs of rope design, stout stretchers, wide comfortable box construction, corner blocks covered with genuine brown leather. Neatly, shaped back panels, carefully crated, weight for shipment 600 lbs. If wanted with table 45 ins. top, 8 ft. extension, \$3.00 extra.

# DINING ROOM FURNITURE

## New Fluted William and Mary

Splendid Quality at Low Price

It would be difficult for you to find a more stylish, dependable dining room suite than this fluted William and Mary design. It is the type of furniture now so eagerly sought for by owners of correctly furnished homes. If you decide upon it for your dining room you will possess something different from the ordinary. It has refinement, strength and durability. Made of finest quality genuine quartered oak and finished in the rich dark brown shade.

Buffet is of dignified type. Top is 54 inches long and 22 deep, surmounted by pediment containing French plate mirror, 28x10 in. The base has one large linen drawer, two cutlery drawers, and two cupboards. Made of genuine quartered oak, dark brown old oak finish.

China Cabinet is 61 inches high, 41 inches wide made of genuine quarter-

ed oak, dark brown oak finish. The design harmonizes with the buffet. The front glass panels are covered with graceful wood lattice work. Shelves are grooved for plates.

Extension Table is attractive, stylish and much admired by those who appreciate fine furniture. Has solid quartered oak top, 48 inches in diameter, with molded edges, 8 ft. extension heavy box rim. Fluted legs joined by graceful curved stretchers. Finished dark brown old oak.

Chairs are strongly built of solid quartered oak. Have broad back panels, full box seat construction, corner blocked slip seats covered with brown Spanish leather. One arm chair and five diners constitute the set. Very best workmanship and material, dark brown old oak finish. Look at the illustration and you will appreciate the full value of this handsome suite. Carefully crated, shipping weight about, 650 pounds.

THE BUFFET is a recent creation of medium size. Strikingly handsome and suitable to the requirements of many homes. Top of base is 46 inches long by 20 inches deep, surmounted with pediment containing French plate mirror 32x10 inches, two cutlery drawers, one long linen drawer and large cupboard fitted with two art glass paneled doors.  
PEDESTAL EXTENSION TABLE has massive feet, firmly attached to large square pedestal; top is 45 inches in diameter with rounded edge and wide box rim, extends to 6 or 8 ft. Smooth running sides which hold the top firmly when extended.  
CHINA CABINET correctly matches buffet. It stands 60 inches high, is 28

inches wide and 17 inches deep. Fitted with double strength glass door and ends; three shelves will accommodate the dishes.  
THE DINING CHAIRS are made in same factory and match rest of the suite in design, color and finish. Notice the stout back posts, which extend full length. This is genuine dining chair construction and not a flimsy kitchen chair worked over to answer the purpose of a diner. Solid seat, brace arms and extra stretchers make this a diner that will stand hard everyday service. Set consists of one arm and five side chairs. Will furnish with pad seats covered with brown or black Pantasote for \$2.75 per set extra.

WINGOLD

# Kitchen Cabinets Are Unexcelled

This is one of the most Practical Kitchen Cabinets Man has been permitted to manufacture. Follow the arrows to each distinguishing feature and then stop for a moment and consider what a great convenience one of these cabinets would be in your home.

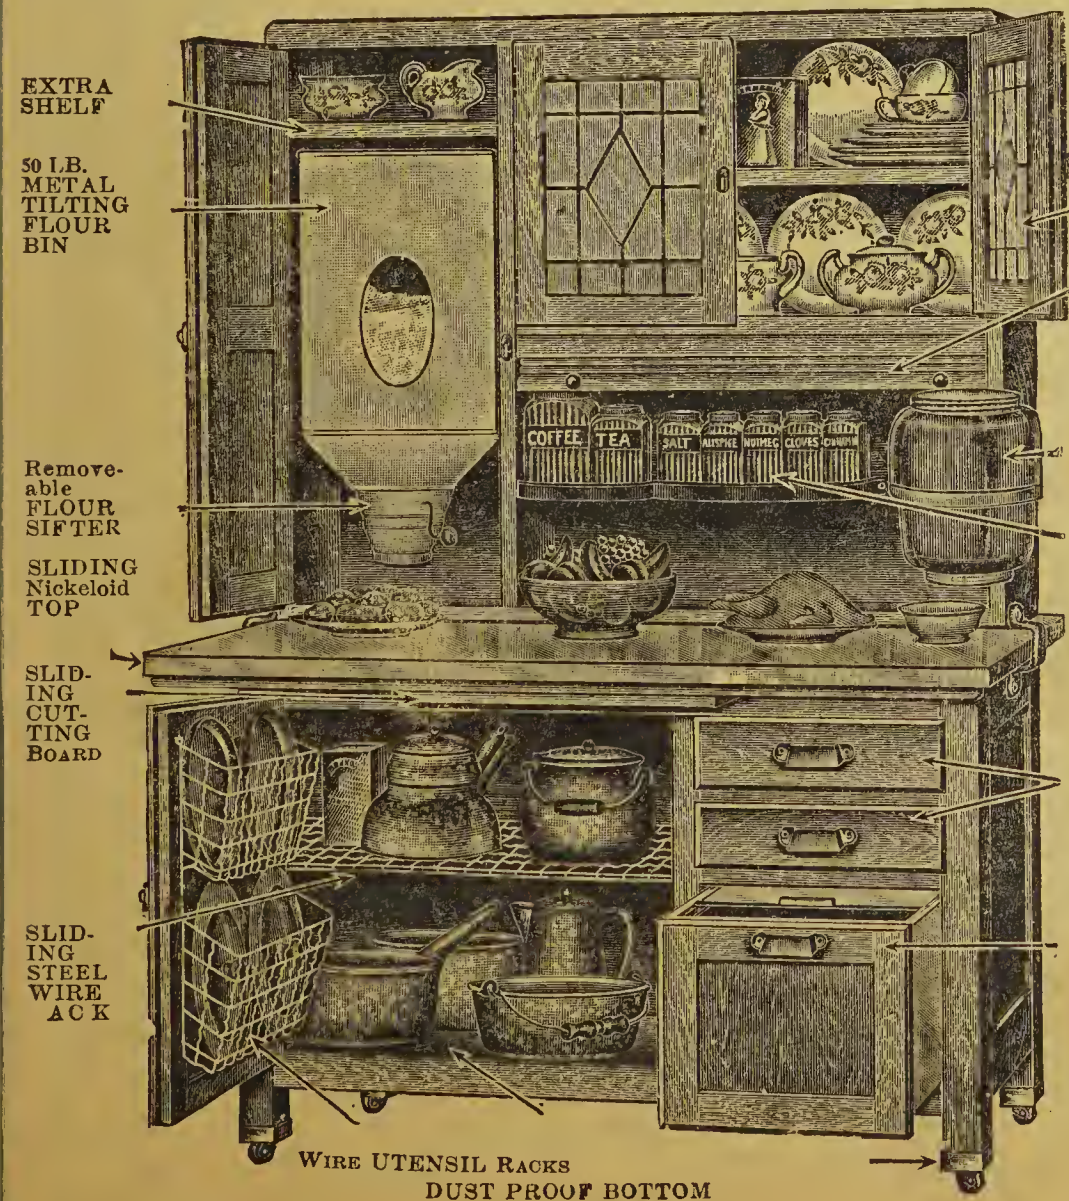

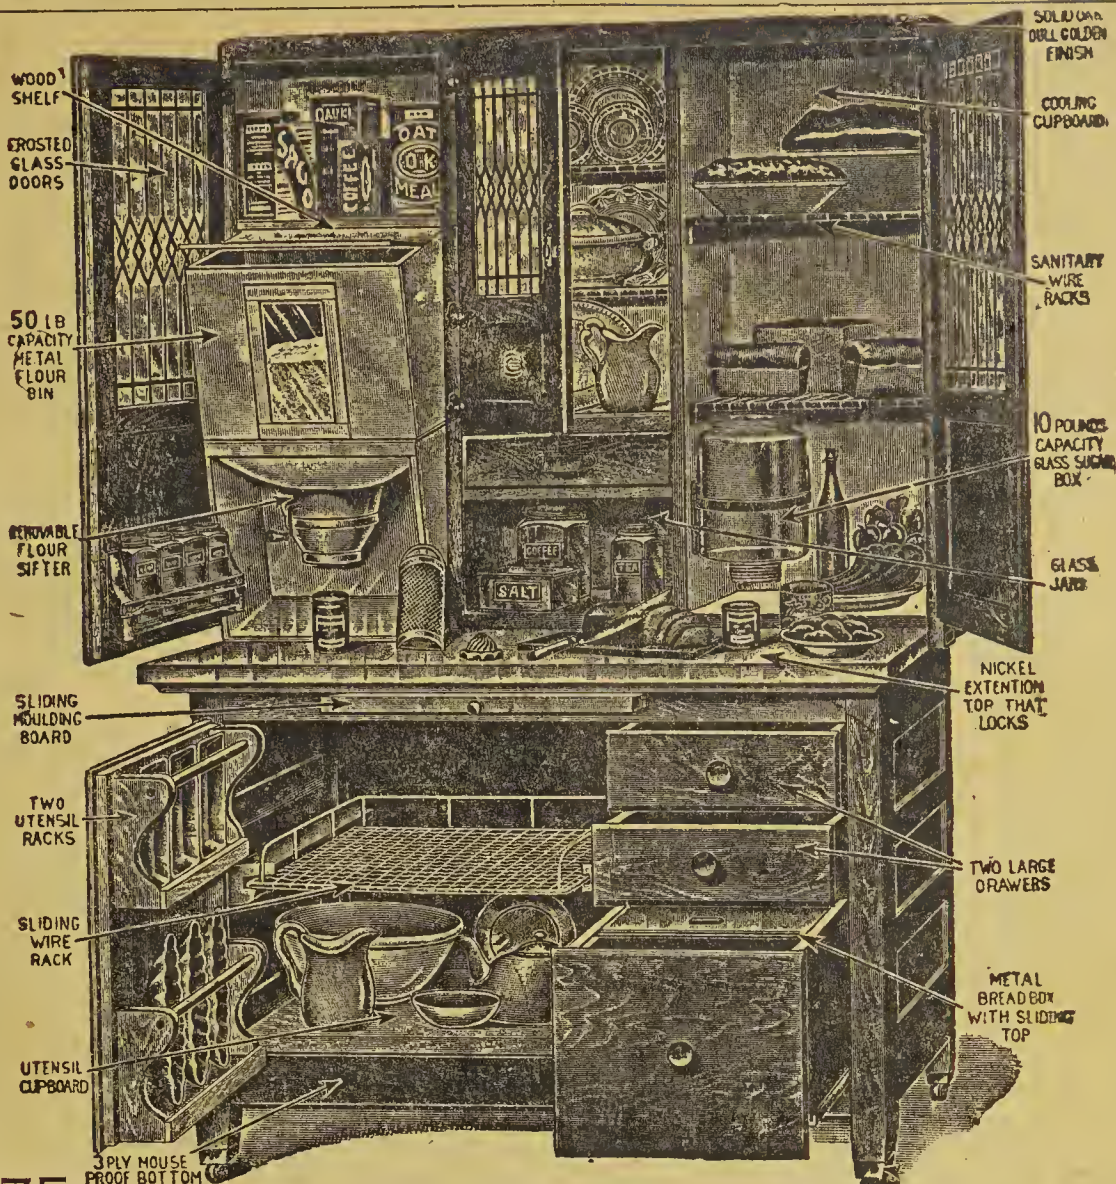

MODERN 20-TH CENTURY IDEAS HAVE NOW ADVANCED TO THE HOUSEHOLD, AND THE KITCHEN CABINET IS PLACED IN THE FRONT RANK OF PROGRESS. IT IS THE HANDIEST MOST CONVENIENT AND THE GREATEST LABOR-SAVING DEVICE EVER CONSTRUCTED FOR THE HOUSEWIFE'S USE. IT SYSTEMATIZES THE ENTIRE KITCHEN. GREATLY LESSENS THE NUMBER OF STEPS, BRINGS EVERYTHING NEEDED IN THE KITCHEN USE AT YOUR FINGER TIPS AND IS AS ARTISTIC A PIECE OF FURNITURE AS IT IS PRACTICAL AND USEFUL.

**Its Features** We ask you to study carefully the special features of this cabinet, enumerated by the arrows in the illustration. Then compare these features with what any other firm offers you at this price. We want you to note particularly the white enameling. This enameling consists of four deep baked coats and is distributed throughout the interior of the top with the exception of the lower centre compartment. Note the sanitary wire shelves, the 50-pound capacity metal flour bin—metal all over—also the nickeline extension top that locks automatically, whether extended or retracted.

**The Construction** is of solid oak throughout, finished in a smooth, high golden color, in the rich dull finish. Has 10-pound capacity glass sugar bin, 6-piece glass canister set with wire rack, consisting of coffee, tea, salt, pepper, ginger and cinnamon jars. One metal cake and bread box, one sliding shelf.

**The Dimensions** This cabinet measures 69 in. from floor to top, is 42 inches wide, the base is 31 inches from floor and has mouse-proof bottom. The doors have brass-trimmed hinges and catches, wood panels.

No. 65—Kitchen Cabinet, White Enameled \$39.75

White Enamel Lined

## KITCHEN CABINET

THOUSANDS OF THRIFTY, VALUE-GETTING CANADIAN WOMEN HAVE TAKEN ADVANTAGE OF OUR LOW PRICES AND HAVE PROVIDED THEMSELVES WITH WINGOLD KITCHEN CABINETS

Their kitchens have been made over into handy cheerful, convenient places to work in. They are saving miles of steps and hours of time. Their cooking and baking has become a pleasure and the tiresome plodding about between table, pantry and stove has been stopped.

**Perfect Cabinet Work** This cabinet represents the limit of quality so far as workmanship is concerned. The wood is selected oak, finished in rich golden, and the finishing and joining is just as perfect as you will find in any piece of furniture. A cabinet of this kind is a necessity in the modern home. There is a place for everything and you have whatever you want at your finger tips. Notice the sanitary removable mesh wire shelf in the lower compartment of the base. There is also a large metal bread and cake box with sliding top. Another charming feature is the tilting flour bin, holding 50 pounds with an oval glass plate so that a glance tell just how much flour is on hand, and you are not running out at an awkward time. The Venetian glass doors in top are artistically ornamented in art glass effect. The compartments for teas, coffees, bottled goods and the like is also white enamelled.

**Free** The cabinet is fitted with five nice glass spice jars, one tea jar and one coffee jar and a splendid glass sugar jar. These are all included in the price of the cabinet and are shipped with it.

**Full Nickeloid Top** is 30x42 when fully extended. This top makes the ideal surface to work upon, as it is perfectly clean and sanitary. Enamelled interior with its four coats of enamel baked on is likewise always clean and bright. Every corner is rounded and smoothed and the cabinet work you will find is faultless. The cabinet measures 42 inches wide and stands 69 inches from floor to top. All doors have strong brass catches and hinges and are double strength. **ROLLER CURTAIN FRONT. NO NEED TO REMOVE ARTICLES FROM TOP TO OBTAIN ACCESS TO SPICE AND SUGAR.** No more beautiful and useful cabinet can be built, and it is not extravagance to invest in a quality cabinet of this sort which makes the preparation of meals, day in and day out, far more pleasurable. Shipping weight, 200 pounds.

# THE WINGOLD SANITARE WHITE BEAUTY

Wingold Sanitare White Beauty Kitchen Cabinet you will find quality of a much higher standard than usually maintained by mail-order concerns. "Price first and quality last" is the slogan of many concerns; but with us—"quality first and price based on true value and small profits." All through this catalog you will find the same High Quality Merchandise that we show on this page. Here, by special attention to display, we try to show you the real quality of Wingold products. The constant increase and growth of our business is due to the fact that we deliver high quality merchandise which gives satisfaction at low prices.

**NOT PRICE MAD.** Some firms consider price everything, but price without quality has no attraction. Our facilities are large enough, our methods economical enough, to allow the making of lower prices than those of other concerns who attempt to deliver the same dependable, high grade merchandise.

## CHOICEST CREATION IN CABINET CONSTRUCTION

**Sanitary Snow White Enameled Inside and Outside, Rolling Disappearing Shutter Front, Removable Moisture Proof Metal Flour Bin, Entire Interior of Top Perfectly White Enameled Glass Sugar and Spice Jars, Double Sliding Shelves in Utensil Compartment, Daily Want List and Kitchen Aids**

**\$41.95**

and a Score of Other Features Described Below. All For .....

CONVENIENTLY  
ARRANGED TO

## Save a Million Steps

**On the Inside** of the door, which closes in front of the flour bin, you will notice a chart indicating all the needs of an up-to-date kitchen. Opposite this chart is a ticket and change tray divided into three compartments. In this you may keep small change always handy, together with your ice and milk tickets. The doors in the top of the cabinet are neatly paneled. On the door to the right is attached a metal rack conveniently placed to accommodate flavoring extract bottles. Below is a very clever and substantial contrivance for holding a cook book.

**The Sugar Jar** coffee, tea and spice jars are all the latest type of Colonial glass, fitted with aluminum tops; the sugar bin has an automatically closing rust-proof bottom. The Sugar Bin hangs on a swinging metal ring so that it may hang inside or outside of the top compartment.

All of the glassware is of extra good, heavy quality. It is attractive in design and adds much to the beauty and convenience of the cabinet.

**The Drawers** in the right hand side of the base are arranged and finished perfectly. The handles on all the drawers and doors, together with the hinges, are attractively copper-plated and of the newest type. They are strong, well shaped, carefully attached.

## The Bread and Cake Drawer

is a very important feature, and one that is used to the best possible advantage. It is made of heavy metal with a wood front, the same as all other drawers. It is made with a sliding ventilated top. In this drawer baked stuffs will not must or mold.

The Base of the Cabinet is equipped with many other very attractive features, among them being the sliding shelf for heavy kitchen utensils and the convenient wire rack on the inside of the door, to accommodate pans, lids, and other flat articles.

**The Sliding Shelf** in the bottom of the utensil compartment is a feature which few other cabinets, if any, have. It is really a false bottom, on which utensils may be placed, and instead of reaching to the back of the cabinet for utensils, the bottom may be withdrawn to any desired distance. In the utensil compartment you will also note a heavy shelf, which may be withdrawn in the same way.

**The Construction** of this remarkable cabinet is just what you would expect—strictly high quality in every detail. It is carefully selected oak. No wood enters into this cabinet until it is first thoroughly kiln-dried and seasoned. All corners are carefully dovetailed and glued and neatly rounded and finished. The finish is beautiful snow white enamel or golden oak smooth rubbed.

**The Flour Bin** is made of all metal, with a small glass window, hermetically sealed in front, and through which the flour may be seen without difficulty. The top of the flour bin is made with an airtight slide over lid and the bottom is fitted with the latest type of sifter and cap. When the cabinet is closed, the flour bin is completely out of view. Capacity, fifty pounds.

**The Rolling Shutter Front** is an entirely new feature. It does away with the inconvenience of doors, which are always sweeping over the work top and getting in the way. This shutter, when up, disappears entirely, and when down makes an attractive tight-fitting front.

**The Porcelain Sliding Work Top** is furnished when desired for \$4.75. This top is made of a heavy steel plate with a deep square edge, enameled with the finest pure white sanitary surface that is procurable. It is as hard as flint and as smooth as glass. This enamel is just like that used in the finest bathroom fixtures. We guarantee it to be proof against heat and cold of any degree. It will never scale. It will never stain, even though put to the test of hot fruit juice. It will show no mark of pot black or any other greasy or colored substance to which it may be subjected in your kitchen. The sliding top is so perfectly balanced on the rollers of the top that it may be drawn out or pushed back with the strength of a finger. It is 42 inches wide and 28 inches deep.

**Full Nickeloid Top** furnished with Sanitare White Beauty unless specified otherwise. Size 26x42 inches. Automatic lock holds it firmly in position when extended. Fitted with Cutting Board.

**The Cupboard** in the top of the cabinet is convenient and spacious. Fitted with the latest type of hinges and gravity latch. This cupboard may be conveniently used for dishes or for storing packages of cereals, spices, or even canned fruits and jellies. It is white enamel lined, with a quality of enamel unsurpassed in any cabinet. It will not scale and may be easily cleaned with a damp cloth at any time. Fitted with two wide shelves.

**Dimensions** Stands 69 inches high; base top 42 inches wide and 31 inches above the floor; mounted on Ever Grip or roller casters. Carefully crated. Shipping weight, 275 lbs. Takes first class freight.

# 3-Piece Suite with Kroehler KODAV DIVAN

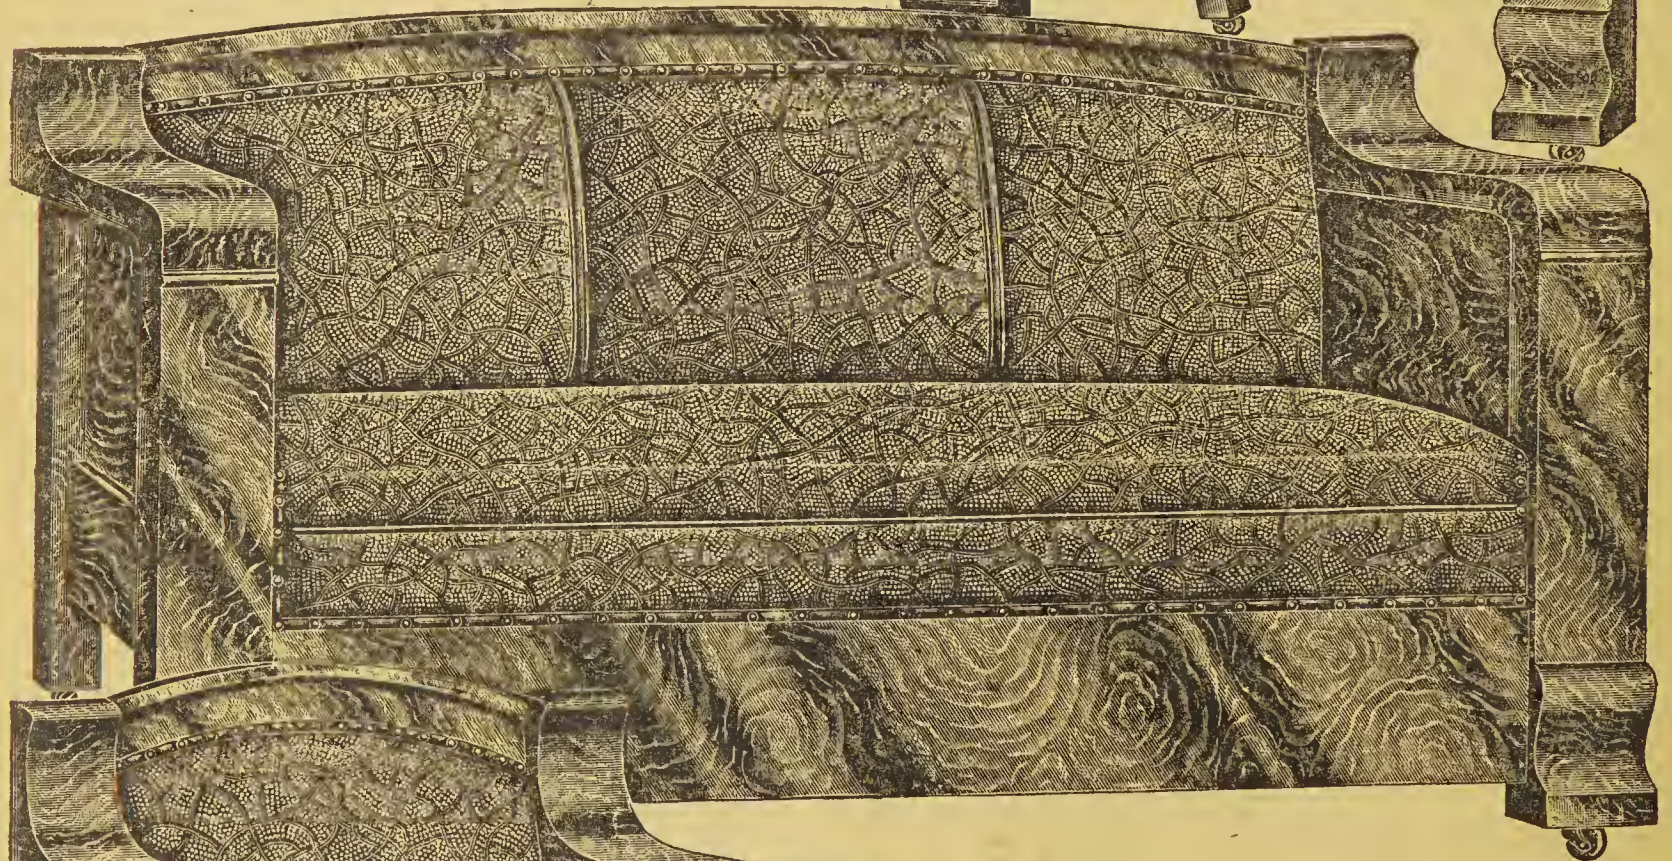

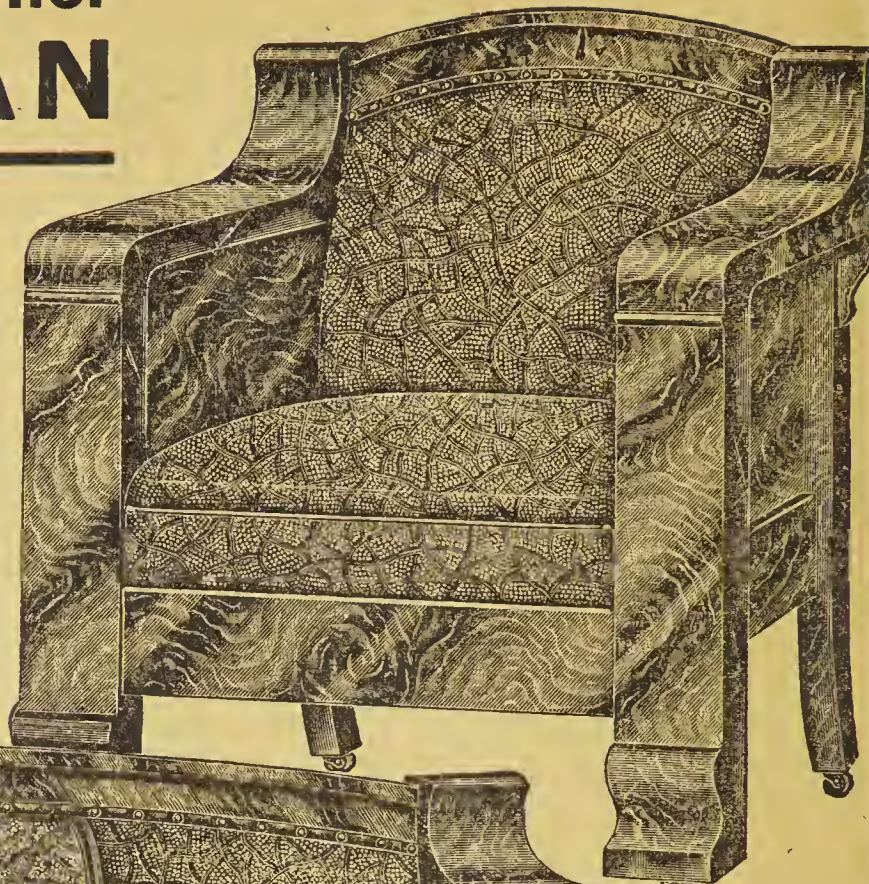

**ARM CHAIR. ARM ROCKER and KROEHLER  
KODAV DIVAN**

Just as advertised in Leading Magazines

**\$71.<sup>35</sup>** Three-Piece Suite—Arm  
Chair, Arm Rocker with  
Kodav Divan - -

**A ROOM FULL OF FURNITURE**—Here is a three-piece famous Kroehler library or living room suite that you will be proud to own, priced so that any home can afford it. It is the kind of furniture you will find in the best homes of the city and is offered to you at bedrock price.

**FUMED OAK ONLY.**—Each piece is made with genuine quarter-oak veneer front, finished. A Massive Colonial design, with broad, comfortable arms extending from top to base.

**Sold Separately or as Complete Suite**

**Covered with Croftman—Guaranteed for 5 years**

**CHOICE OF FOUR COVERINGS.**—Upholstered in either black or brown Craftsman imitation leather. Will give excellent wear and rival genuine leather. Has unusual beauty and resiliency. Also furnished in black or brown genuine leather. No matter which upholstering you order, we guarantee you the best quality this price ever bought.

**SOLD SEPARATELY OR AS SUITE.**—If you buy the entire three-piece suite you have a library, parlor or living room full of furniture. Or you can buy one or two pieces separately in any finish or upholstering you desire. Each Kodav Divan shipped knocked down to insure lowest freight rate and delivery in first-class condition. Weight of suite, about 400 lbs..

**THE FAMOUS KROEHLER DUOFOLD** is a magnificent, stately parlor divan by day, a decoration to any library or living room. At night it unfolds from under the seat, affording you a full size, comfortable bed; with full set of springs in seat and back, thickly padded to insure luxurious comfort. Measures 58 in. wide and opens to a bed 72x48 in. You sleep on a regular spring and a 40 pound cotton felt mattress, and not on the upholstering as in the old fashioned davenports. Bedding goes into the wardrobe back during the day. Weight about 260 lbs.

**THE ARM CHAIR AND ARM ROCKER** match perfectly. Made in massive Colonial design, with broad comfortable arms extending from top to base. Both have luxuriously padded spring seats, 20x20 inches. Weight of each piece about 85 pounds.

# Bed Couches

We urge caution when ordering a Couch. There is room for great deception in the manufacture of couches. There are those who are price mad and have no thought of producing a couch for real service. When you buy a Wingold Couch you can depend on getting a couch which will give you good service for the price you pay.

## \$12.75 Windsor Bed Couch

No. 13-1—The Windsor Combination Wardrobe and Bed Couch. It is a bed, a wardrobe and a couch. The frame is made of seasoned hardwood and put together in a very substantial manner. Has full set of oil-tempered steel springs securely tied, insuring service as well as comfort. When opened to be used as a bed, there is a full spring mattress covered with best quality ticking. The size of bed is 72 inches long by 46 inches wide. The wardrobe will be found very useful for storing bedding, clothing, etc. It opens full length, is 6 inches deep and 22 inches wide; lined throughout. Shipping Weight, 100 lbs. is what makes these pieces so extremely comfortable. This is the latest construction and is being adopted now by the best factories because of its absolute comfort and wear-resisting qualities.

**BIG ARM CHAIR** is an exact companion piece to the other. It matches in every detail and we recommend ordering the two arm chairs and rocker. Then

by placing them all in one room and possibly removing a chair or two that you now have to another room, you will have a handsome set that will almost make the room new. The frame of this chair is strong and durable, made of quartered solid oak Automobile seat covered in genuine brown Spanish Imperial leather. Shipping weight about 75 lbs.

## Stylish and Comfortable

The Finish of these pieces is carefully applied, color rich brown, fumed. The Cushions are covered with cretonne and filled with clean, new, Genuine Cotton. Especially desirable patterns, which harmonize artistically with the finish you select, are used. These cushions add so much, both to appearance and comfort, that you should by all means order them with this suite.

Reed furniture of this type is now considered quite the thing for up-to-date homes, and it possesses many advantages over any other. It is strong, yet flexible enough to be more than ordinarily comfortable. It does not easily scratch or mar, is light and inexpensive.

The frames of the pieces in this suite are made of select hard maple, strongly braced. Choice reeds are woven by hand to form the symmetrical, pleasing design.

This Chair has become immensely popular at fashionable seaside resorts, as well as with thousands of comfort-loving home people.

## Reed Suite

## Very Attractive Design

You should, by all means, order these pieces with the cushions, as they look much more attractive in this way, and cost but a trifle more. The cushions are filled with Genuine Cotton, and covered with shadow cloth in designs and soft colorings, which harmonize perfectly with the rockers, and with other furnishings of the room in which they may be placed.

Reed furniture of this type is suitable for any room in the house, and probably no furniture you could buy for the same amount of money will give as much in comfort, durability and satisfactory service from every standpoint. This suite is especially big value, as you will agree when you see it.

Entire back and sides woven diamond mesh. Woven apron around all sides. Frame of hard maple, wrapped with rattan. Big roll arms and back.

Size of seat, 20x19 inch. Height of back from seat, 24 in. Shipping weight, about 23 pounds.

**For a Charming Home**

Rocker of unrestricted Quality reflecting Delightfully Artistic Taste. Upholstered in Special Spanish Imitation Leather of Intensely Fine Grade.

**Rockers** are usually sold for at least twice the price we ask. It doesn't make any difference how much you look around among the better grades of rockers nor how much more you are willing to pay you will not find anything to equal this particularly charming design.

**Detailed Description** In the first place, the frame is made entirely of hardwood with all exposed parts finished in Birch mahogany highly polished, then rubbed dull to give it a very rich effect. There are no less than 9 springs in the seat supported on specially constructed wood slats. In the upholstery we have used a special grade of Spanish imitation leather which is unquestionably the greatest leather fabric on the market. It is positively the best grade that we have ever seen and will always prove a source of infinite delight once you have had an opportunity to see and use it. Notice the spacious dimensions of this rocker. The seat is 17 inches from the floor, giving you a low rolling effect. The height of the back from the floor 38 inches. The seat is 21 inches deep, 22 inches wide and 34 inches overall width. Rocker is shipped set up ready for use. Packed in a strong wood crate with a shipping weight of about 100 lbs.

## TORRID Wingold SIX HOLE RANGE \$37.95

The very Latest pattern in Colonial design in beautiful proportions. Has enough lines and small ornamentations to justify us in saying it is the handsomest range ever made. Very heavy castings of best quality, superior workmanship, first class and unsurpassed operation, together with lasting qualities, make this range the greatest bargain ever offered; in fact, the only cheapness in connection with this range is the price.

Main Top and centers are strong and heavy; won't crack or warp, thus insuring top to remain level; has five 9-inch and one 8-inch covers, strongly made, with ring reinforcement on under side and will not crack; covers and centers made slightly loose for expansions.

Grates. Duplex only and of such excellent pattern that fire box may be kept clean at all times without resorting to use of poker. Range burns any kind of fuel.

Pouch Feed. The up-to-date pouch feed used on this range and is very convenient to allow fire box to be fed with any small fuel; broiling or toasting may also be done by raising pouch feed door.

Ash Pit and Ash Pit Door. The ash pit is solid and of one piece, and is very heavy, thus preventing cracking, and receives very large ash pan; nicked band on front edge of ash pit or hearth; the ash pit door contains a draft slide for regulating purposes, and swings clear to permit ash pan to be removed.

Reservoir Tank is made of Copper; it may be lifted out at will. Water may be kept at any desired temperature. Capacity, 6 gallons.

Reservoir Covers are cast hinged in center and removable; coated with black enamel and baked thoroughly to prevent softening.

Oven Door is very large and almost square pattern, handsomely carved to correspond with general design of range, nicked panel or name plate in center completes the neat appearance of the door.

The Fire Box is the most up-to-date and carefully built in use; gives wonderful results with smallest consumption of fuel. Built of the best grade of iron castings. Fire brick lined. This is the only style of construction that gives entire satisfaction where hard coal is used.

Steel Warming Closet is constructed of a high grade blue polished steel body and roll front; heavy cast iron brackets, nicked and burnished on edges; strong nickel corners and two nickel pot stands which may be let down. Check slide in closet pipe.

## Ribbon Design Brass Bed with Massive 2-in. Posts

One of the Newest and Handsomest Two-Inch Post Brass Beds Made

**\$27<sup>75</sup>**

## Finished in Satin Finish Combination

**THE RIBBON DESIGN** is one of the newest and prettiest effects known in brass bed making. In the satin finish these velvet ribbon effects are interwoven between the dull satin coating. In the velvet finish the satin ribbon bands are interwoven between the velvet finish, thereby producing a harmonizing and beautiful contrast.

## TWO-INCH MASSIVE POSTS

Cornerposts and top cross rails are two inches thick. Filling rods are one inch in diameter. Posts and pillars have heavy steel rods inside, insuring extra strength. This is a feature not to be found in any brass beds others sell at this price. Height of head end, 59 inches; height of foot end, 38 inches. Furnished with heavy steel rails that interlock for absolute rigidity.

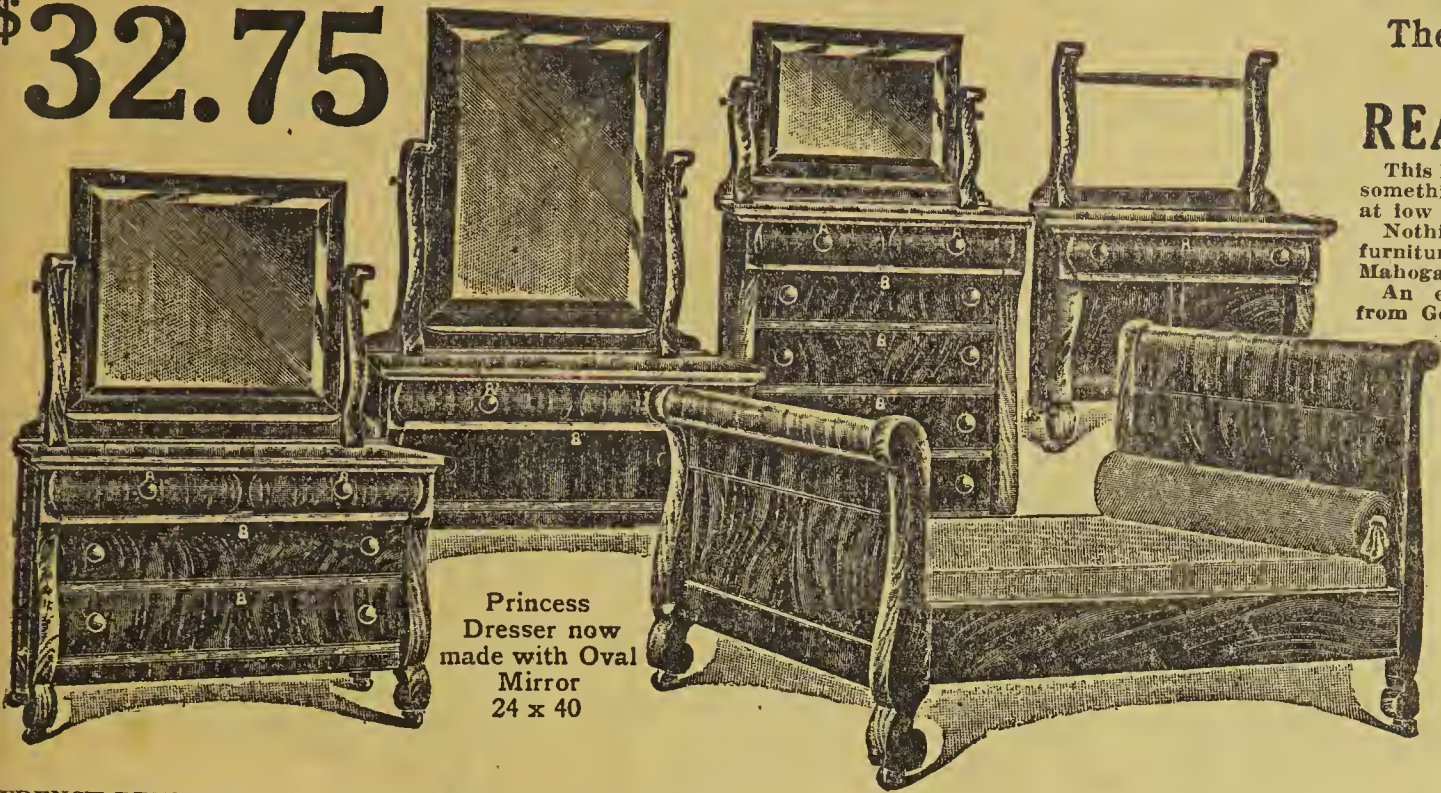

**ACID TESTED FINISH** The finish on this bed is furnished either in dull satin or velvet, guaranteed to give you the service and satisfaction you have a right to demand at anywhere near this price. Furnished in full size only, 4 foot 6 inches wide; weight, about 130 pounds.

## IMPERIAL ROLL EDGE

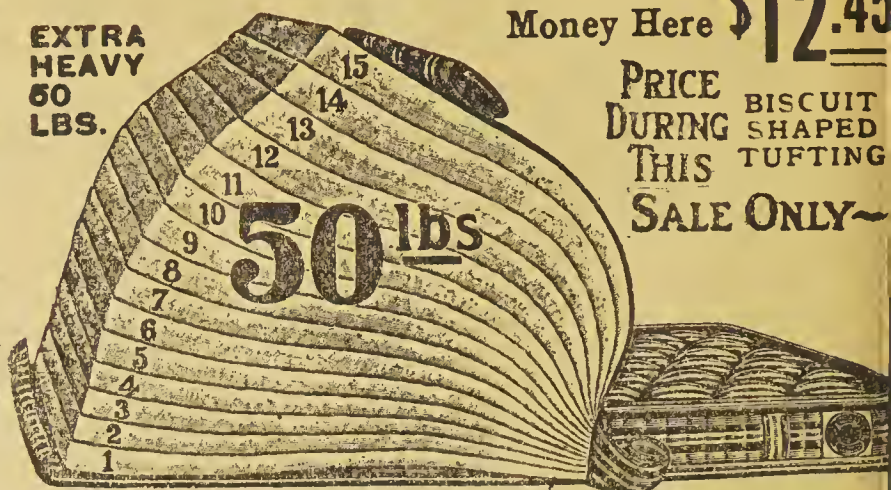

Round Corners : : : Fancy Art Ticking

DURING THIS FALL ONLY we offer this high-grade felt mattress, full 50 lbs., in the 54-inch size, covered with beautiful blue color, French art pattern ticking, guaranteed not to stretch. Has a full 4-inch border with extra stitching through the centre which holds the border firm. Tufting is biscuit shape. Has Imperial roll edge, which maintains the shape and adds greatly to the appearance of the mattress. Fitted with handles for convenience in handling and turning. The filling is new, fully matured cotton (built, not stuffed) of even layers of soft cotton felt, pure, germ-proof and non-absorbent. This mattress never requires remaking, a bath in the sun every two or three weeks is all that is necessary to keep it in first class condition.

As we spend one-third of our life in bed, it pays to exercise care and judgment in mattress selections. Sound, healthful, refreshing sleep depends greatly on the quality of the mattress.

A BRAND NEW IDEA IN MATTRESS BUILDING.—Here is one of the newest combination mattresses made, combining clean, sanitary cotton felt, with sanitary wood wool fiber and producing one of the most luxuriously comfortable mattresses this price ever bought. It is another example of Wingold's superiority in giving our customers the benefit of the very newest ideas in home furnishing building. It has all the comfort giving features of an elastic all cotton felt mattress.

FULL 50 POUND WEIGHT.—The weight of a mattress has considerable to do with its lasting qualities, as well as permanent comfort. In judging the value of this mattress, remember it is a full 50-pound weight, made up of three layers sanitary, clean cotton felt on top, three layers of the same cotton felt on the bottom, and an equal thickness of cotton felt

on all sides, filled in the center with this sanitary wood wool fiber, so made that it will not sag in the center, giving you the same even comfortable mattress on all ends and on both sides.

BEAUTIFUL FLORAL ART TICKING.—This mattress is covered with a special grade of floral art ticking, closely tufted all over and very fully stitched. Edges are in beautiful Imperial roll design, with roll corners. The same kind of finishing and edging you find on the highest grade cotton felt mattresses.

WILL FIT ANY BED.—This mattress will give satisfaction on brass, iron, steel or wood bed.

No. 3846—Mattress, All Sizes. State Size Wanted .....

# EVERY FARMER SHOULD READ A GOOD FARM PAPER

A farm paper to the Farmer is as important as the business Magazine is to the Manufacturer or Merchant. The Progressive Farmers, Merchant or Manufacturer is constantly looking for new ideas by which to increase their income. The value of an up-to-date Farm paper cannot be measured by dollars and cents. One new idea will often save thousands of dollars. Farming is conducted today scientifically, and the farmer who keeps abreast with the times by reading a thoroughly reliable, progressive farm paper is sure to make more money than the one who fails to take advantage of the progress made in this kind of business.

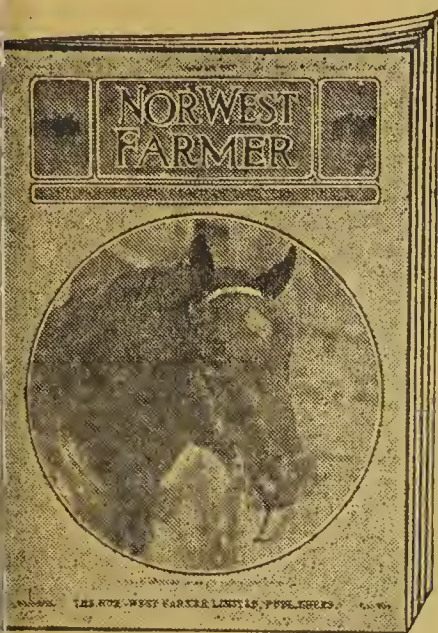

Let me help you make more money. If you are not already reading the Nor-West Farmer, I believe you should. I am convinced that the new idea you get from this splendid farm paper will aid you materially in increasing your profits—and that is what you are really working for; isn't it?

**YOU AND I SHOULD CO-OPERATE**, we will both do better if we do. I am asking for a share of your trade on such merchandise that we offer in this catalog, believing that I can save you considerable in cost and deliver such goods that will give you entire satisfaction. If you will send me the names and addresses of 20 or 25 of your friends and neighbors, and enclose 50 cents. # WINGOLD WASHERS

- MAKE EASIER AND  
SHORTER WASH DAYS

Wingold Automatic Ball Bearing Washer

The High Speed Washer

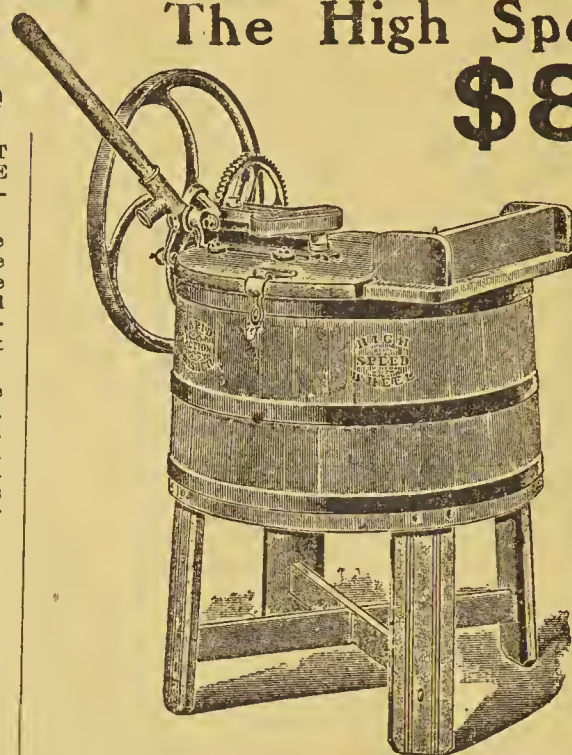

**\$9.95****\$8.65**Steel  
FrameBall  
BearingABSOLUTELY THE BEST  
AND HIGHEST GRADE  
SWING WASHING MA-  
CHINE MADE

The tub swings on large steel ball bearings. These ball bearings carry all the weight, and are arranged in a steel cup so constructed that they cannot get out of place.

By grasping the handle and swinging it to one side, the coil tempered steel springs stop it and start it back the other way with a quick reverse motion, as the tub travels the other way another spring swings it back again.

At each swing of the tub the boiling water by centrifugal force and suction is forced through every thread and fibre of the clothes, cleaning them with three times the rapidity, and more thoroughly than any other way, and doing it with very little labor. Shipping weight (crated), 100 lbs. second class freight.

Wingold No. 1 Ball bearing washer .....\$9.95

RUNS EASIER WITH  
FULL LOAD THAN  
OTHER MACHINES DO  
EMPTY

More than a thousand different kinds of washer have been made and sold but none have given better satisfaction than the High Speed. It runs easier and washes faster than any other washer of the dolly type.

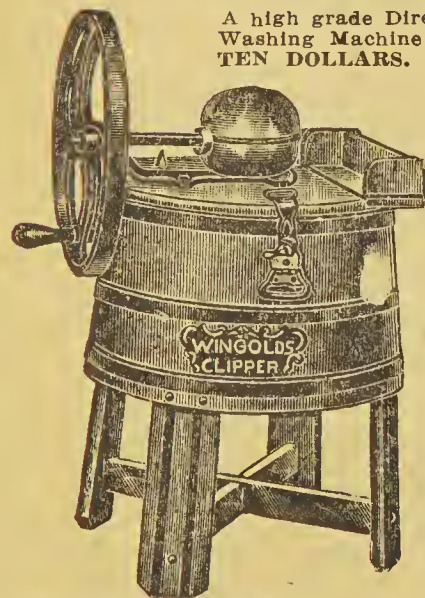

Double thickness overlap lid. When open allows plenty of room for operator to put in and take out clothes.

Large tub made of Louisiana Red Cypress. Plenty of room for large sized wringer. The dasher is fitted with our new device for preventing clothes from catching and tearing.

We offer the High Speed as the most efficient running and desirable washer ever placed on the market. It runs quietly and embodies the desired high speed with the least possible effort.

Shipping weight (crated) 95 lbs. Second class freight.  
66No. 65—High Speed Washer .....\$8.65

# BLANCHARD GAS POWER WASHER

**THE GREATEST WASHING MACHINE SUCCESS OF THE AGE**—on the market less than two years and over 30,000 now in use. Freedom from the awful slavery and drudgery of wash-day. With a **BLANCHARD GAS POWER WASHER** in your home gloom and despair fades away and happiness and contentment finds place—and mothers strength is saved for more noble and useful purposes. Reduces the washday problem to a simple, easy process, which requires no serious physical or mental efforts.

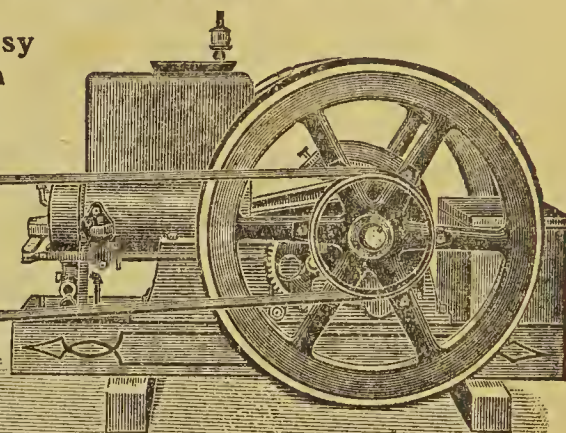

The **THREE-POSITION SWINGING BALL-BEARING WRINGER** takes the last life out of wash-day. A whole big wash can be done without the lifting or moving a tub.

## CONSIDER THESE ADVANTAGES

- No. 1—Quick Release Safety Lever on Wringer, prevents accidents and damage to clothes.
- No. 2—Safety First; all moving parts encased.
- No. 3—Lever at right controls Wringer. It runs forward or backward or remains neutral.
- No. 4—Lever on Tub controls Washer. Washer runs independent of Wringer or at same time.
- No. 5—Wringer Swings to Three Separate Positions, has reversible Waterboard which allows you to rinse and wash as many times as you like.
- No. 6—A Solid Heavy Large Corrugated Cypress Tub and Stand, double thickness overlapping joint Lid. All nicely finished.
- No. 7—Mechanism Heavily Constructed, carefully fitted and encased to prevent accidents.
- No. 8—Patent Dolly; see sectional view of **Silent Ezee-Go**. This is the most effective dolly in use.

## ENGINE -- The Best Money can Buy

This sturdy Engine is the most dependable and powerful of any ever designed of same dimensions. It is mechanically perfect in material, construction and design. The strong, substantial construction, the perfect fit and perfect alignment of its working parts, gives the maximum of power in marked contrast to the cheap, flimsily constructed engines in which labor and material is skimmed to save cost and where friction and loose joints consume much of the power.

This Engine is built for economy of operation and enduring service. There is no other Engine which measures up to this one in high standard of quality. For Details of Specifications, **SEE PAGE 61.**

## SILENT EZEE-GO HAND OR POWER WASHER Mechanically Perfect in Construction

This wonderfully smooth, easy-running cut gear Hand or Power Washer has made a lot of so-called high grade hand or power washers slip back quickly into the row of "has-beens." Its ease of operation—its fast washing qualities and its superior construction—appeal to those who appreciate a real good article.

A Quiet, Easy Running Machine for Rapid Work.

### SPECIAL FEATURES

- MACHINE-CUT GEARS**—No friction, no noise.
- LARGE FLY-WHEEL**—Powerful momentum. Washes large quantity of clothes at one time, without undue effort.
- HAND LEVER OPERATES** from two positions.
- NEW PATENT DOLLY**—The most important improvement in years. (See illustration.) This Dolly works down amongst the clothes and forces them through the water so that they are thoroughly cleansed.
- LOUISIANA CYPRESS TUB**, large size; corrugated inside and fitted with stout hoops and braces.

**CONSTRUCTION**—The tub and Stand are made of thick select red cypress, carefully chined and thoroughly held together by wide steel hoops. Double thick top with overlapping joints, firmly hinged to tub. Water-tight construction. Combined Wringer and Waterboard which drains all water into tub. Entire tub, cover and stand carefully varnished.

**MECHANISM**—Ordinary cheap hand or power washers are fitted with cast gears, with the result of hard-running, noisy machine. The **SILENT EZEE-GO WASHER** is equipped with all carefully machine-cut gears. This makes it run easily and quietly.

It will last longer and wash faster and wash a larger quantity of clothes at one time.

Belt Wheel for Power use attached to fly-wheel.

### THIRTY DAYS' TRIAL OFFER

Try a **SILENT EZEE-GO WASHER** for 30 days and if you are not satisfied that it is the smoothest running combined hand or power Washer you have ever seen, and convinced that it is superior to anything similar sold elsewhere at \$15 to \$18, ship it back and we will refund your money plus freight charges you paid. We take all the risk and give you ample time to satisfy yourself that it is all we claim for it before you decide to keep it or not.

Automatic Lift  
Ball Bearing  
Solid Oak Cabinet  
Golden Polished  
Finish.

Swell Front Table and  
French Leg Stand.  
Steel Pitman. No keys  
required as Drawers  
lock and unlock auto-  
matically.

**This Sewing Machine** has four drawers, drop head, apron front, automatic lift and is of the easy running, ball bearing type. Cabinet is solid golden oak throughout in gloss finish, with the exception of the lid, which is of genuine quarter-sawn oak veneer. Inlaid tape measure on cabinet helps operator measure goods without rising. Cabinet is prettily designed, having swell front table, brought out in nicely figured oak. Exceptionally strong construction assured by the fact that each wooden part is fastened independently, or screwed directly to iron stand.

**The Stand** The Improved Wingold "B" is equipped with new, beautiful, strong French leg stand made of very best gray iron. Lines are sweeping and graceful. This stand is very easily dusted. Is given high lustre finish of black Japan. Steel Pitman (or driving rod) is used on the Improved Wingold, not the old style, easily broken, hard running, wood Pitmans found on many higher priced machines than ours. No keys required. When you turn back lid, drawers unlock automatically; when head is lowered, drawers lock securely.

### Patent Steel Drawer Guides

Steel drawer runners instead of old style, fragile drawer racks. These steel drawer runners are fastened directly to stand. Eliminates drawer sticking. Short steel bar automatic lift is absolutely tool proof. Brings the head frame up flush with table in firm position to do away with vibration. Has high balance wheel, reducing exertion needed for operating machine, also makes it lighter running. Equipped with fine sewing head with upper tension on top of arm. Will satisfactorily handle all classes of goods. No. 7J833. Price...\$23.95

# Here's The Improved

## Automatic Locking Drawers

### No Keys Required

## YOU WILL SAVE

The price of this beautiful automatic lift, ball bearing, convenient and light-running machine in your home the first year through the many things that it will reduce for you. Its time, temper, labor saving conveniences that you will so thoroughly enjoy are listed low. They are of great significance to the woman who does her own sewing, you will appreciate after ce trying the Improved Wingold C. Remember, at its purchasing it, we and this machine to you on approval subject to a guarantee of satisfaction, or your money back.

IMPROVEMENTS constitute the following: the automatic locking drawers eliminate the necessity of using keys on this machine; it has steel drawer runners, on which the drawers slide easily and smoothly without sticking; short steel bar automatic lift raises and lowers the head automatically; the highly japanned French leg stand is wide, strong, beautiful in design, and, being of an open pattern, is very easy to dust and keep clean.

OTHER FEATURES are the steel pitman driving rod, which is used in place of the old-fashioned wood pitman, which breaks easily, and is far from satisfactory in results; the ball bearings insure easy running; this easy running feature means a great deal to the woman who does a large amount of sewing, as it transforms drudgery into a pleasant occupation, as well as the ease with which machine operates.

Guaranteed for  
Twenty Years

# Wingold "C"

## BEST SEWING HEAD

CABINET WORK is exceptionally attractive. There are six carved drawers, panel front style, swelled front table with genuine quarter-sawn lid, all finished in a beautiful golden oak color. Has 18-inch in-laid tape measure on table. Sewing head is case hardened in all bearings. Makes perfect smooth stitch, is strictly high arm, possesses latest improvements such as self-threading shuttle, self-setting needle, top tensions, automatic bobbin winder, decorated in gold and silver, many parts nickel plated above and below bed plate. Best steel attachments, full set tools, complete instruction book and twenty-year guarantee.

## THREE MONTHS TRIAL OFFER

# THE WINGOLD "D"

## The Unequalled Family Sewing Machine

To own a Wingold D means the possession of as good a sewing machine as money will buy. There are no statements which we can make regarding the quality of this machine or the work it will do, as the machine itself will not more than bear out. Every known valuable improvement has been incorporated in its manufacture. From the very highest quality materials, selected with special care; skilled mechanics have produced in the Wingold D a sewing machine which any woman can be justly proud of. For ease and simplicity of operation it is clearly in a class by itself. Just a few strong simple points which seldom require adjustment. A beautifully finished golden quartered oak cabinet, heavy ball bearing stand, automatic lift drop head, silent steel drawer guides, drawers unlock and close automatically; full size high arm head, automatic tension release; positive four motion square foot; self threading shuttle and positive take-up. Some of the features that claim your attention.

## NINETY DAYS PRELIMINARY TEST—

Order a Wingold D, use it for 90 days, if you are convinced that it's everything and more than we claim, if it fails in any way to please you, return it and get back your money, plus the freight charges you paid.

## FOUR OWN HOME AT YOUR OWN CONVENIENCE YOU MAKE THE TEST

The Wingold D will give you such splendid results that you will be happy with your choice.

SEWING HEAD has an unusually high arm and makes a perfect lock stitch. It is equipped with all necessary improvements and labor-saving devices, including Improved Spring Tension, with Automatic Release, Automatic Bobbin Winder, Stitch Regulator, providing for any desired length of stitch, hardened super steel working parts that will last a life-time, double Positive Four-Motion Feed, Self-Threading Shuttle, Nickel Plated Steel Face Plate and Self-Setting Needle.

PITMAN and BALL-BEARING BALANCE WHEEL are equipped with our new double ball-bearing nickel-plated steel man. These pitmans have a complete set of ball-bearings at each end. They are adjusted at the factory and require less care and attention than the regular wooden pitman. The metal pitman, with ball bearings, besides reducing friction makes the machine run easier. ## Wingold Hot Blast Heaters

Will keep your home warm every hour of the day or night during the coldest weather.

The brick lining extends the full length of body, not part way like most of other heaters of this type offered by others. This feature is important as the danger of the steel burning through above the brick lining is great. During extreme cold weather you have greater heating capacity size for size than any other heater made.

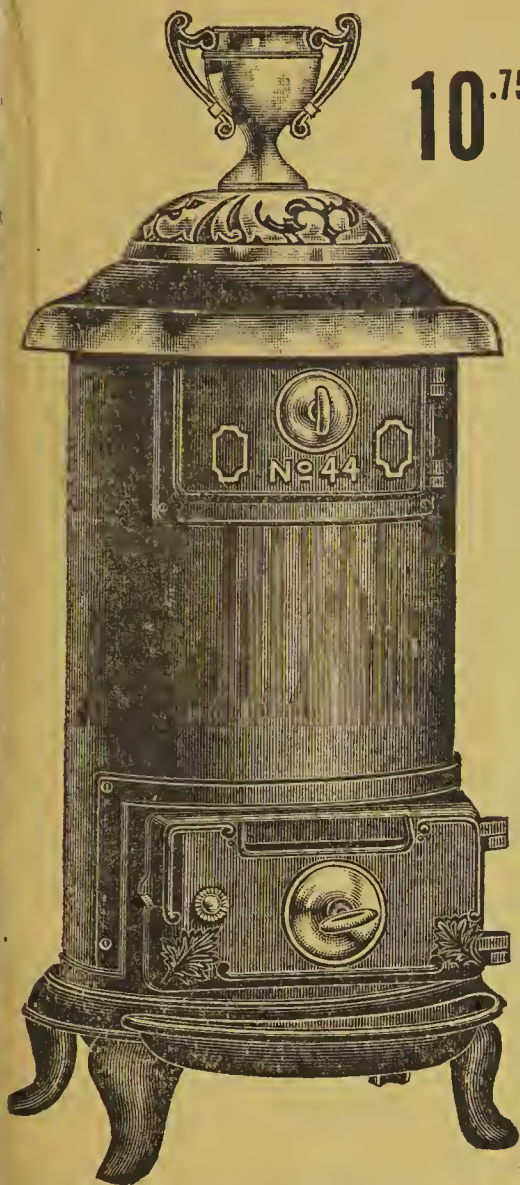

The specially constructed Brick Lined Fire Box makes combustion perfect. Every unit of heat contained in the fuel fully developed. An even temperature maintained. The Wingold Hot Blast has greater efficiency than any other. Priced base burner. It will generate and radiate more heat from a given amount of fuel. Order the Wingold Hot Blast; there is nothing that will equal in heating capacity, appearance, durability or general satisfaction, which will hold fire for 48 hours.

### CONSTRUCTION

Body made of gauge blue polished steel. Feed Door illuminated front is substantially mounted. Has nickeled screw draft register. Brick Linings are burns anything everything combustibles maintains more temperature and is only kind of fire that burns hard successfully.

# WINGOLD OAK

\$9.85

Don't think because we price the WINGOLD low that it is a cheap, flimsy constructed heater, like the general run of heaters sold at similar prices.

THE WINGOLD OAK is a real high grade oak stove, made of heavy material and carefully fitted to burn your fuel economically. It has appearance, durability and convenience found only in the higher grade heaters.

THE FIRE POT is made of heavy iron, bell shaped and corrugated, which construction radiates 50 per cent. more heat than the old style smooth fire pot.

A HEAVY BASE supports the fire pot, a good sized ash pit is provided and equipped with bailed ash pan.

THE GRATE is an improved combination shaking and duplex which is more convenient to operate and stands the fire better than old flat dumping grates. The grate is operated without opening the ash pit door; this prevents dust and soot escaping into the room, ruining carpets and pictures.

FEED DOOR is large with screw draft register and extends from top of fire pot to nickel band. Has smoke curtain and is very convenient where wood is used as fuel. The edges are ground, making an Absolute Air-Tight Joint. The ash pit door has ground joints, making it tight fitting. This construction is found only in the very best stoves.

NICKEL PARTS on our Wingold Oak Stove are the most elaborate and most handsome put upon any stove; they are all triple nickeled, highly polished and buffed so that they look exactly like silver. The nickel foot rails are very massive and heavy, of the neatest design and are about three inches deep, which adds greatly to the ornamentation. It has also a wide nickel band at the top.

Stove Number	Diameter of Fire Pot	Height	Weight	Price, Wood or Coal
1-12 W.O.	11 in.	35 in.	110 lbs.	\$ 9.85
1-14 "	13 in.	39 in.	125 lbs.	12.45
1-16 "	15 in.	42 in.	145 lbs.	14.95

## The New QUEBEC

THE NEW QUEBEC is entirely different from any similar heater on the market. The top is fitted with a large swing cover with reducing lids to accommodate various sized pots or pans when used for cooking purposes. When wood is used for fuel the top may be swung to one side to accommodate a chunk of wood the full size of fire pot. Has heavy cast top and bottom, cold rolled steel body. Fire brick lined. Draw center shaker grate, large ash pan, screw drafts in ash pit and feed doors give perfect fire control. Clean, economical and efficient. Takes up very little room. Great heating capacity. Holds fire for 36 hours. Mounted on sanitary leg base.

## Heat Your Upstairs Without Cost

Connect one of these Drum Heaters to your stove pipe and heat the rooms above without extra expense. A Wingold 2-story Heating Drum gives you the full benefit of the last unit of heat contained in your fuel. Made of heavy sheet metal and carefully constructed, supported by cast iron legs. Height 30 inches. No. 6-2 — Two storey Heating Drum, for 6-in. pipe, weight 20-lbs. each ..... \$2.50

No. 7-2 — Two storey heating drum for 7-in. pipe. Weight 22-lbs. each ..... \$2.75

\$15.50

## THE NEW Banner Parlor Oak Heater

Is now made with Illuminated Front Door

The Base Gives ample room for a large commodious ash pan, so placed that if emptied at proper intervals no ashes will ever fall to the bottom of stove. It has swing ash pit door, the joints of which are ground and fit air tight. The ash pit door is fitted with two screw dampers, as shown in the illustration; they are ground into place and fit perfectly air tight, enabling you to regulate and control the draft and fire with ease and precision.

Grate We have provided this Oak Heater with a much heavier and larger grate than is found in others. It is of the drawout center pattern, which has, by experience, been found to be the best and most practical grate for an Oak Stove.

Fire Pot is extra heavy, corrugated cast iron, full sized and thick enough to be used without extra lining.

The Body is made of a very heavy gauge cold steel finest grade, highly polished and uniform in color.

The Feed Door is ample large to permit large pieces of wood or chunks of coal to be put into the stove easily. Screw draft damper.

The Top contains cooking lid under the swing top and is edged by a wide electrically welded nickel steel ring.

The Urn is handsomely designed and neatly finished in Japanese bronze.

The Finish is elaborate, the base screw draft dampers, the graceful foot rails, the nicely designed side wings, the name plate, steel deflecting ring and swing top are triple silver nickel plated, and contrast sharply with the deep black of the balance of the stove. All in all it is a handsome stove, such a stove as will be an ornament to any room of your house, and we are anxious that you should by an actual trial convince yourself of the truth of our statements.

### THE BANNER OAK DIMENSIONS AND PRICES

# THE ELEGANT Self Feeding Base Burner

32.7

A Self Feeding Base Burner, Reliable, handsome, medium sized hard coal heater. New in design, economical in consumption of fuel.

Satisfactory results at minimum expense. The heater you have been wanting for comfort at low cost.

The Elegant Self Feeding Base Burner is scientifically constructed in accordance with latest approved methods of radiation. Perfect combustion and uniform radiation guaranteed. Heavy round fire-pot, shaking ring and dumping centre grates. Large magazine, perfect draft control, elaborate nickel-plated trimmings.

**IN DESIGN** it is both attractive and ornamental. The beauty of its outward appearance does not interfere with its great heating capacity or economical consumption of fuel.

**THE NICKEL TRIMMINGS** are of the highest quality of pure nickel silver plating, finely burnished, and give a most elegant and artistic finish to the stove.

**THE MICA DOORS** extend the full length of the fire chamber. Allows the cheerful glow of the fire-light to illuminate the room.

**THE OVEN** bakes perfectly, and is supplied with two lids for boiling.

**THE FIRE-POT** is extra strong and heavy made to withstand the great heat produced, and can easily be removed through the upper doors.

**THE GRATE** is the patent Duplex grate with shaking ring which clears the outer part of the fire-pot from ashes and clinkers, and the grate turns all into the ash-pan below.

**THE FLUE CONSTRUCTION** is of the circular pattern, the very best known for base heaters. The flues are extra large, but so proportioned to the size of the fire-pot as to make the Elegant a powerful as well as economical heater.

**THE HOT-AIR FLUE** is large and near the centre of the bottom of the heater. The cold air is taken into the flue from the floor and passing upwards comes in contact with the fire-pot and magazine, and becomes intensely heated and circulates into the room through the perforated top on the back of the main top.

**THE DOUBLE HEATER ATTACHMENT** can easily be made by attaching a 7-inch pipe to the pipe collar at the back of the swing-top cover, and then carrying it to the room above. When not wanted for heating upper rooms, by the use of the cup damper, the heat can be turned off and retained in the lower rooms.

Catalogue Number	Diam. of Fire Pot	Weight with Oven	Price without Oven	Price With Oven

CB 132	14 in.	405 lbs.	\$36.75	\$42.75

## Order Your Base Burner Now!

There are not enough available for this season's requirements. Somebody will have to go without. Order early then you won't be disappointed.

\$38.50

# The Cinderella Self Feeding Base Burner

**WARNING**—Don't spend your money on a low price base burner and expect to obtain satisfactory results as carelessly constructed, loose fitting joints will not do in base burners. This Cinderella is the only strict high-grade self feeding base burner sold by mail.

## MATERIAL AND WORKMANSHIP

Our new Cinderella is made from the most carefully selected, high-grade material that it is possible to procure. The workmanship is done by thoroughly skilled mechanics. The castings are made smooth and perfect and there are no rough, uneven or loose joints made in the mounting of this heater.

The proportions and construction of this Heater are scientific and accurate. The consumption of coal is complete, while the heat produced is perfectly radiated and circulated. This heater requires very little care or attention and meets the requirements of every one desiring a PERFECT, HIGH-GRADE, DURABLE, HANDSOME AND MODERN HARD COAL BASE BURNER.

This High Art, Double Heating, Self-Feeding Hard Coal Stove is another of our celebrated line of WINGOLD Stoves. All of these stoves are thoroughly and carefully inspected and re-inspected before leaving the foundry, and are of faultless construction.

The Very Elaborate and Elegant Design will harmonize well with any style of furnishings. In securing the attractive appearance, the superior heating properties and economy of fuel consumption have not in any way been sacrificed.

The Mica Doors extending across the fire chamber display the bright and cheerful light from the glowing coals. Each Mica door is fastened with a solid turn-buckle which holds it secure.

The Handsome Nickel trimmings add to the brightness and beauty of the entire design. The nickel plating is of the highest quality and beautifully burnished.

The Fire-Pot is made heavy and strong to stand the intense heat and can be removed when necessary, through the upper front doors.

Extra large self-feeding Magazine saves time refilling. Tea-Kettle Heating Top.

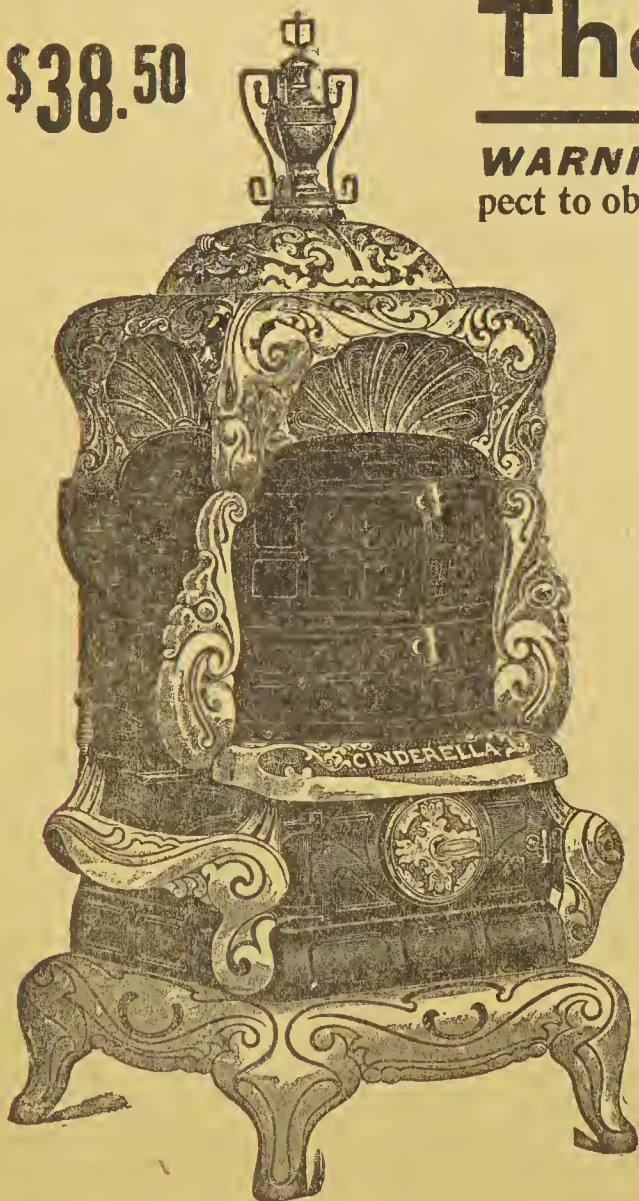

The Patent Duplex Grate with shaker ring easily clears out all ashes and clinkers turning them into the ash-pan below, leaving a clear, bright fire.

The Circular Flue construction is acknowledged to be the best style known for base heating. The flues are large but of correct proportions to the size of the fire-pot, thus making a powerful and economical heater.

The Hot Air Flue is also large and placed near the rear centre of the bottom of the heater. The cold air is drawn up from the floor into the flue and passes upward between the ascending and descending smoke flues, it comes in contact with the fire-pot and magazine, thus becoming heated and circulates into the room through the perforated top on the back of the main top of the heater.

The Double Heater Attachment is easily adjusted and can be used to heat the room above, but, if not so desired, the large cup damper allows the heat to be turned off from the double heater pipe, thus the warm air can be circulated through the lower rooms alone.

This splendid Heater can now be had at remarkably low prices. It ensures comfort and enjoyment through the coming winter. Place your order early. We were over sold last season to the extent of several hundred.

Now made in Three Sizes and Suitable to Every Requirement.

# The "EVER-READY" WINGOLD BLUE FLAME WICK OIL STOVE

Economical and Convenient the entire year.  
Burns Kerosene (coal) Oil—the Cheap Convenient Fuel

Indispensable Summer or Winter.  
SUPERIOR CONSTRUCTION

**FREE**

Sad Iron Heater  
Furnished FREE  
with "Ever Ready"  
Wingold Stoves.

There are many points of superiority in our "Ever Ready" Wingold Stove which make them leaders in quickness and economy of operation. Here are a few of them:

- 1—SHORT BLUE ENAMEL BURNER CHIMNEY. The heat does not have far to travel. Less oil is used.
- 2—CHIMNEY diameter full 6 inches. Gives highest and largest flame.
- 3—HIGH FLAME almost the minute burner is lighted.
- 4—ENAMEL CHIMNEYS easily lifted and replaced by Chimney Lifter. No soiling hands as where you have to touch the chimney itself.
- 5—WHEN CHIMNEY IS LIFTED, the wick is fully exposed for cleaning. No flame spreads to be removed.
- 6—BRASS BURNERS can never rust. Built to last a lifetime.
- 7—COOKING can be placed directly over center of flame.
- 8—STOVE OPERATES at very low cost for fuel.

**You May Pay a Good Deal More, but You Can't Buy a Better Stove.**

You can't buy more comfort and convenience at any price. You can't secure more satisfactory baking and cooking qualities in any range. No matter what fuel you use, you can't operate any other stove on any other fuel nearly as cheaply as you can the "Ever-Ready" Wingold on common kerosene oil.

## Details of Construction

Cooking Top is just a convenient working height from the floor. It is large enough so your vessels are not jammed together.

Polished Brass Burners will never rust, cannot leak as they are drawn seamless. These burners produce a clean, intense Blue Flame that is free from soot, smoke or odor. The flame can be turned high or low as desired. One gallon of oil will run a burner for 20 hours at full flame.

Burner Chimneys are steel, heavily Grey Enameled; they are rustproof, sanitary and easy to clean. They are short and bring the flame directly against bottom of cooking vessels. They require less oil to operate than if the heat had to travel up a long chimney.

Our Patent Chimney Lifter allows the chimneys to be lifted and replaced without touching your hands. When lifted the wick is fully exposed for quick lighting or cleaning. The Lifter holds chimney up until you are through, leaving both hands free.

Your fuel supply is in plain sight. No guessing whether you have enough. This Tank is firmly braced and removable for refilling. Holds one gallon of oil. No danger of overflowing.

Cabinet High Shelf is firm and steady. It is finished with Black Enamel, nicked trimmings. The enclosed back keeps grease from spattering on the wall.

Two Burner Oil Stove Ovens, with Glass Window and Blue Enameled Panel  
Our Perfect Baking, Ventilated, Heat Retaining Ovens. We furnish them with a glass panel or Solid Door. These ovens will do your baking as well as the oven of any coal or wood range.

Articles to be baked constantly in sight. Insures against burned cake, pies and bread. Outside measures 21 1/2 inches wide, 18 1/2 inches high, 13 1/2 inches deep. Weight, crated, 27 lbs. Can be used over one or two burners. No. 828—Two Burner Oil Stove Oven.....\$3.65

## Maple Leaf Cook Stove

A New Cook Stove of Pleasing Design with Extra Large Oven.  
BURNS WOOD OR COAL OR WOOD EXCLUSIVELY.

Now made with  
Shelf below Oven  
Door.

**BURNS WOOD OR COAL**

**BURNS  
COAL  
OR  
WOOD**

Guaranteed to  
give entire satisfaction.

This is a larger and better stove than you would expect to get for the price asked. For economy in consumption of fuel and durability, it is the equal of cook stoves which retail at \$33 to \$37.50.

**THE MAIN TOP.** The main top, covers and centers are made of the very fine cast stove plate.

**THE FIRE BOX.** The improved fire box is large, just the right depth, and is of sufficient capacity to properly operate the oven without waste to fuel, and no heat will be lost whether a large or small fire is burning. All linings are heavy.

**THE DUPLEX GRATES** form the bottom of the fire box and they are made in two parts, so that a slight turn of the shaker crank cuts out the dead coal and clinkers without in the least disturbing the fire.

**OVEN** is square and the entire oven space is therefore available for use. It is surrounded by heavy iron plates which radiate and absorb the heat, keeping a uniform temperature even with an unsteady fire.

**THE RESERVOIR** is quick heating, made of the best iron, fitted with removable copper reservoir tank, which is easy to keep clean and will not rust. Reservoir covers are black japanned.

No.	Holes	Oven	Weight	Price with Reservoir	Without Reservoir
R9-20	4-9	18 x 19 x 11 1/4	425 lbs.	\$28.75	\$28.75
R9-22	4-9	20 x 21 x 12	450 lbs.	\$31.75	\$28.75

**THE HAPPY MOOD COOKSTOVE** is low in price and small in size, it is big enough, safe enough and durable enough to be depended on for satisfactory service where a larger and more expensive stove cannot be used to good advantage. We do not claim Heaven and Earth for this little stove like some firms, but we confine ourselves to the truth by saying that its larger, better fitted and will give better results and last longer than many stoves of this type now offered by others.

**MADE OF HEAVY NEW GREY IRON** stove Plate, carefully moulded, closely fitted and strongly bolted together.

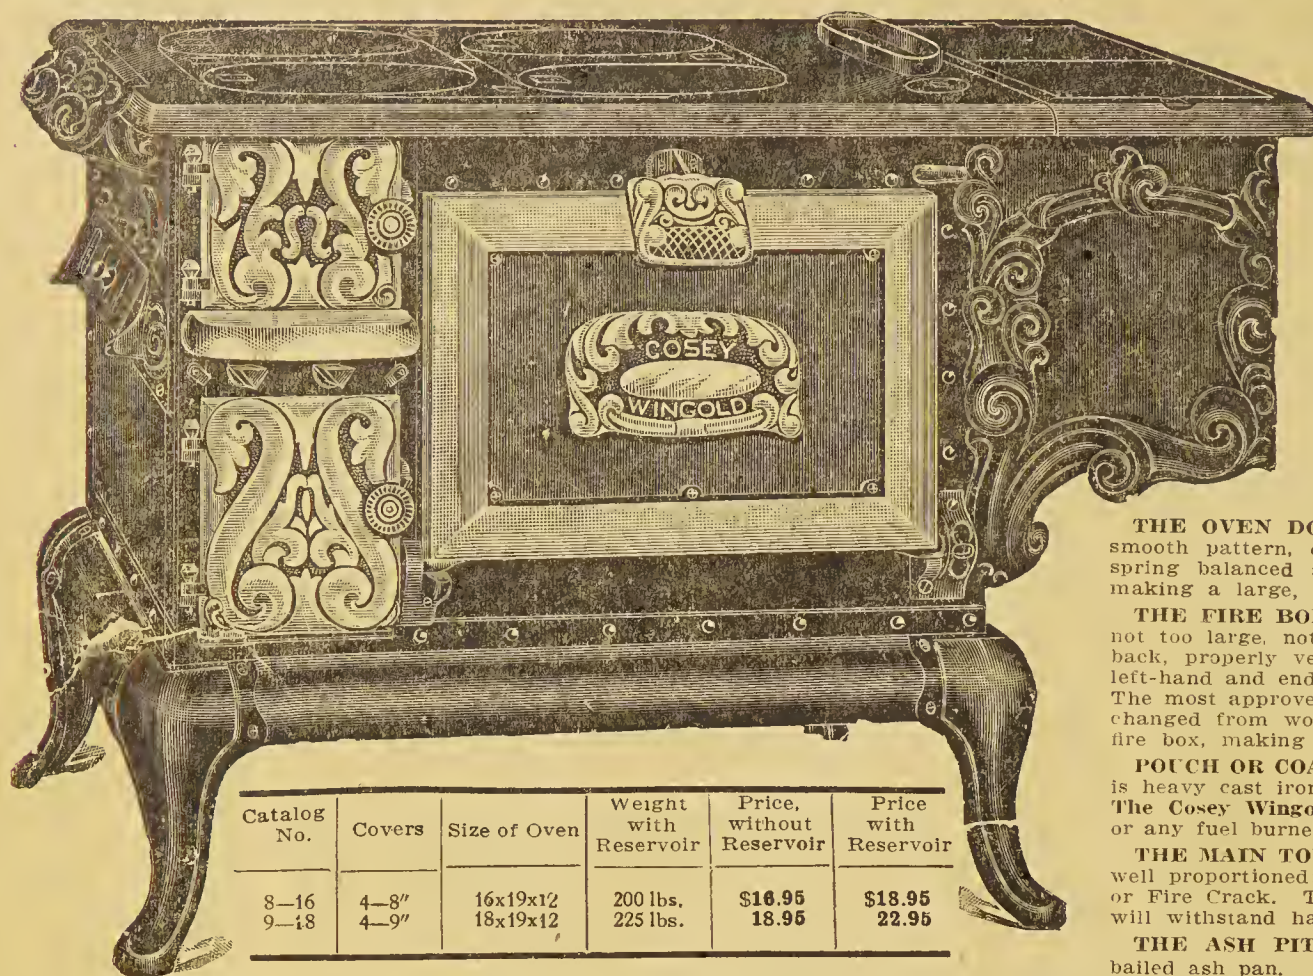

**COOKING TOP HAS FOUR NINE INCH LIDS.** OVEN measures 16x9, including the swell of the oven door. (This is the way all stoves are measured.) Has shelf below oven door, bakes well with very little oil, has removable rack. Fire-Box large enough for a small stove, takes 16 in. long, heavy linings.

**DUPLEX GRATES, BURNS WOOD OR COAL.** Front draft in swing door. Fair sized ash pit, sliding hearth, large end shelf, smoke pipe 6 in. Shipping weight, about 175 lbs. No Reservoir.

4916—Happy Mood Cook Stove without Reservoir .....\$12.75

# IMPROVED COSY WINGOLD STEEL COOK STOVE \$16.95

## Full Nickel Trimmings

The Improved Cosy Wingold is not the shadow of a stove like some of our competitors offer, but a real high quality medium sized cook stove. It has the same cooking and baking qualities of high priced ranges. We guarantee it to please you in every respect. We have sold thousands during the past eight years, and there is not a stove to equal it on the market size for size and style for style.

**CONSTRUCTION.** The Body is made of heavy gauge steel closely boiler rivetted. Has heavy sheet steel flues and cast flue strips.

**THE OVEN** is made of cold rolled steel with edges flanged and closely rivetted to body; the top is covered with asbestos; the bottom is well braced by flue strips, and will not buckle or warp out of shape.

**THE OVEN DOOR.** The Oven Door Frame is a new smooth pattern, easy to keep clean. The oven door is spring balanced and opens flush with bottom of oven making a large, convenient shelf.

**THE FIRE BOX** is just right for a stove of this size not too large, not too deep. It has heavy sectional fire back, properly ventilated, which ensures long life. The left-hand and end sections are heavy and properly fitted. The most approved Duplex Grates which can be instantly changed from wood to coal or vice versa, complete the fire box, making it the best all-round fire-box made.

**POUCH OR COAL FEED** is large. Left end of the stove is heavy cast iron, and fitted with draft and poker door. The Cosy Wingold burns Hard or Soft Coal and Wood or any fuel burned in the ordinary family stove or range.

**THE MAIN TOP OR COOKING SURFACE** is large and well proportioned; the lids are strong and will not War or Fire Crack. The short centres have deep flanges and will withstand hard service.

**THE ASH PIT** is a good size and fitted with large bailed ash pan.

**THE RESERVOIR** is made of Galvanized sheet Steel and is heated by contact. Holds 6 gallons. **THE NICKELED PARTS ARE:** Oven Door Frame, Feed Door, Ash Pit Door, Oven Door Catch, Ash Guard and Name Plate. Made in two sizes only, as listed above.

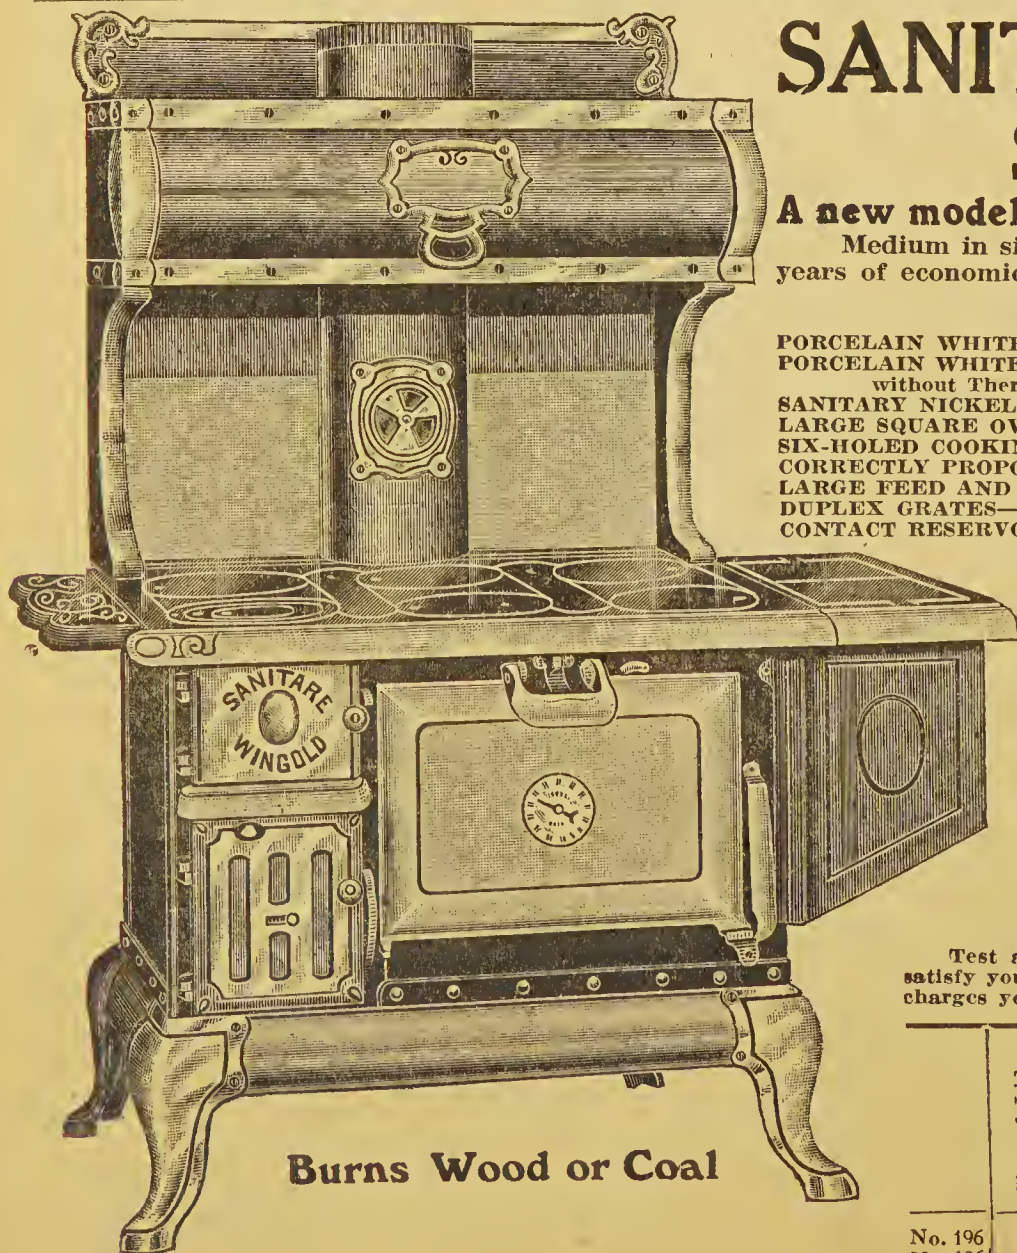

Catalog No.	Covers	Size of Oven	Weight with Reservoir	Price, without Reservoir	Price with Reservoir

## SANITARE WINGOLD STEEL RANGE

A new model embodying Special Sanitary Features. Medium in size and low in price; yet durably constructed to give years of economical service.

### SPECIAL FEATURES

PORCELAIN WHITE ENAMEL SPLASH BACK. STEEL HIGH CLOSET. PORCELAIN WHITE ENAMEL OVEN DOOR PANEL and NICKELED FRAME, with without Thermometer. **SANITARY NICKELED LEG BASE.** **LARGE SQUARE OVEN,** a perfect baker. **SIX-HOLED COOKING TOP** in the largest size. **CORRECTLY PROPORTIONED FIRE BOX, THREE-PIECE SECTIONAL BACK.** **LARGE FEED AND ASH PIT DOORS,** fitted with Draft. **DUPLEX GRATES**—Burns any kind of coal or wood. **CONTACT RESERVOIR**—Capacity 6 gallons.

Burns Wood or Coal

**THE BODY** is manufactured from selected cold rolled steel of a heavier and stronger gauge than is used in ranges the retail at much higher prices. It is thoroughly put together riveted with wrought iron rivets, strongly reinforced and braced in every part. **High Closet** is of generous proportions. It is just at the right height and has a balanced door. **Main Top, Covers and Centers** are made of the highest grade gray iron, which stands the heat better and is less liable to crack or warp than any other material. It has long cut centers and all loose parts of top are carefully fitted. **Has Duplex Grate** which is instantly converted into a coal-burning grate at the will of the operator. **The Oven** is of very generous proportions, with spring balanced drop oven door, and it is an extremely quick and even baker. **Handsome nickeled Leg Base.**

**WATER FRONTS** for the **SANITARE WINGOLD**, price \$3. These can be easily fitted into the fire box at any time.

Test a **SANITARE WINGOLD** for 30 days in your home. If it fails to satisfy you in any respect, return it and get back your money, plus the freight charges you paid.

# Clipper Wingold

**A Big Full-Sized Family Range  
at a Price Which Defies Competition**

The Clipper is not the shadow of a range, like some, but is heavily constructed of best materials with a view of giving many years of satisfactory service.

If you are going to buy a medium priced range, order the Clipper and place it alongside of any range offered by other mail-order houses, costing \$8 to \$10 more, and if you do not find it superior in every respect and if you are not convinced it will last longer and give you better satisfaction, return it to us and get your money, together with freight charges you paid. More than five thousand now in use giving satisfactory service. If the Clipper does not please you, we don't want you to have it.

**BODY AND OVEN** made of extra heavy steel, asbestos lined and reinforced with metal covering.

**WARMING CLOSET** is nice and roomy. Just the right height; has a balanced door.

**COOKING TOP**, covers and top, are made of the highest grade grey iron; has five solid 9-inch lids and one sectional lid; size of top, 42 in. x 26 in.

**OVEN** is a perfect baker. Does its work quickly and evenly with little fuel. **OVEN DOOR** opens even with the oven bottom, forming a shelf. Size of Oven, 19x18x13 inches.

**THE FIRE BOX** has heavy cast linings, is adapted for all kinds of fuel, and has extended pouch for extra long wood. Heavy Fire Back, well ventilated, to ensure long life. For wood 22 ins. long, 8 ins. wide and 9 ins. deep.

**THE GRATES** are of the duplex pattern and can be changed from coal to wood by simply turning half way with the shaker. The ash pit is deep and is fitted with ash chutes, compelling all ashes to fall into a large size ash pan.

**SMOOTH SILVER NICKELED TRIMMINGS** are another feature that the housewife cannot fail to appreciate.

**THE COPPER RESERVOIR** is encased, which ensures durability and good heating. Holds five gallons. Shipping weight, 400 pounds; third class freight.

# THE CAPITAL WINGOLD CAST RANGE

FOR  
DURABILITY  
THE  
"CAPITAL  
WINGOLD"  
HAS NO  
EQUAL

Our Capital Wingold Range is a plain Colonial design of solid construction so much desired by everyone. It has the smooth, natural black iron surface which is so easy to keep clean, and takes such a brilliant polish. There are no fussy carvings or pockets to catch and hold the dirt and grease. It is not overloaded with Nickel Plated Parts.

It is built of carefully selected, thoroughly tested, special grade cast iron stove plate, that has great wearing qualities. Every piece is thoroughly tested, and no imperfect castings are used.

All the edges are ground smooth and even, and every joint is fitted true, making it tight and solid, so there is no leaking of air.

A MASSIVE METAL RANGE  
BUILT TO GIVE YEARS AND  
YEARS OF SATISFACTORY  
SERVICE AFTER THE CHEAP  
POT METAL KIND HAS GONE  
TO THE SCRAP-HEAP.

The Oven is large square type, vented, and does quick and perfect baking; browns equally well, both on bottom and top. The Oven Rack doubles your baking capacity. The Nickel Plated Oven Shelf is flush with the oven bottom. Just touch the Automatic Opener with your feet, if you wish the oven door open when your hands are full.

The Oven Thermometer does away with all uncertainty, or the necessity of testing the oven, as it always records the exact degree of heat required.

The Direct Draft or Baking Damper is placed out of the way, but in plain sight on the cooking top. It operates easily and has no long connecting rod to wiggle or burn out.

The Reservoir Tank is removable and is lined with copper. Holds 20 quarts of water, furnishes plenty of hot water.

The Polished Steel Warming Closet is very useful and well built. The large, roomy, inside space is fitted with a new drop door, which forms a wide shelf when open.

It is also fitted with a joint of 7-inch pipe that is equipped with a Register Draft.

The Leg Base raises the range to a convenient height from the floor, and makes it easy to sweep underneath.

Nickled Front Legs and Skirting.

There is very little nickel plating used in the construction of this range — enough to give a touch of brilliancy to the handsome side appearance. This nickel plating is plain and durable with a smooth, mirror surface that is easy to keep clean and bright.

COMPLETE AS SHOWN **\$62.75**

These are the Special Features that make the Capital Wingold so Convenient, Durable, and Economical

The Cooking Top is built of heavy, durable Cast Iron Stove Plate, with the Main Ribs cut in sections, to allow for the natural expansion and contraction of cast iron. The Solid Lids are firm and rigid. We furnish a Sectional or Ring Lid that permits you to place a cup or small vessel directly over the fire if desired.

The Fire Box, which is the life of any range, is so well constructed that your fuel does not go up the chimney in wasted smoke, but is fully consumed, and all the heat it contains is generated and used for your baking and cooking.

The Fire Box Linings are built of durable cast iron and made to stand the wear and tear of the intense heat. They are built in sections, and can be replaced a section at a time, when necessary.

The Feed Doors are ample enough in size, and so constructed that you can easily put fresh fuel on the fire. The combined End Pouch Feed and

Broiler Door allows you to use large chunks of soft coal. The Front Door makes the use of wood easy and convenient.

## Duplex Grate

Gives you the choice of fuel at all times. If you wish to use Wood, reverse this grate, leaving the Flat Side Up, and take out the end fire linings. You can then use wood 25 inches long. This grate can also be removed without disturbing the fire box linings or water front.

The Ash Pit is of ample size, and the ashes are dropped through the chute into the strong, bailed Ash Pan, without spilling.

The Flues are so well built, and of such size, that they readily carry intense heat to the Cooking Top, Baking Oven, and Hot Water Reservoir where you want it. The Cast Iron Body radiates enough heat to keep the kitchen warm and comfortable in the coldest weather.

Height, floor to cooking top, 31 inches. Height, floor to top of Warming Closet, 57 inches. Length of Fire Box for Wood, 25 inches.

# Joffre Wingold Steel Range

The Biggest and Best Family Steel Range Made

Study the illustration on Page 55, and you will quickly realize that the JOFFRE WINGOLD is by far the largest, handsomest and best built family steel range now manufactured. It is years ahead of any similar range now made in Canada. Every detail has been carefully thought out and worked out with a view of producing a range that is handsome, large, convenient, economical and one that can be depended on for a LIFE TIME OF SATISFACTORY SERVICE.

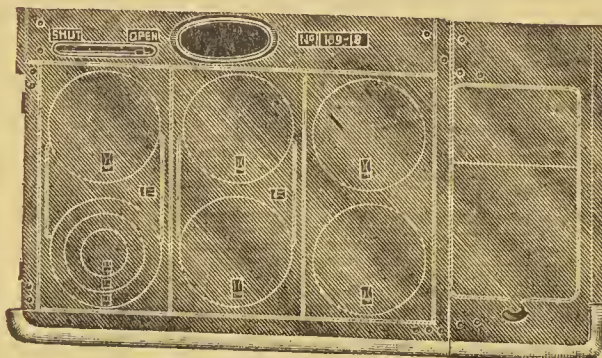

All Plain Smooth Surfaces. Easy to clean, extra large full tiled high closet with nickeled drop door. A great big square oven with glass pane door, watch your baking proceed without opening the door.

Encased Reservoir, large capacity. A fire box that has size, weight and strength, the largest and heaviest fire box linings used in a family range. All properly ventilated to ensure long life. Lift up anchor plate, polished cooking top and sanitary leg base. Order a JOFFRE WINGOLD subject to our 90 days' free trial offer. Let it demonstrate in your home that it is all and more than we claim. You will be proud of your choice, and owner of the finest range in your neighborhood.

Notice the size, shape and proportion of this splendid fire box. Its massive linings, extra strong duplex grate bars, and closely fitted joints make the fire box that will burn any kind of fuel economically. Its extraordinary weight combined with scientific ventilation gives it unequalled durability.

## This shows Construction of Cooking Top

FULL POLISHED TOP, extra smooth cooking surface, notice the sliding damper with gives you perfect control of the Oven. Two open anchor plates to accommodate 2 pit bottom boilers at once.

## 90 DAYS FREE TRIAL

Use a Joffre Wingold for 90 days. If it does not prove better than you expect, return it and get back your money plus freight charges you paid.

## This

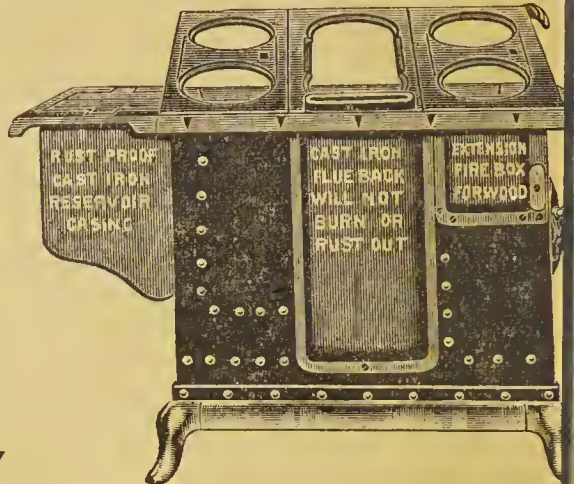

Illustration shows the body of the

Joffre Wingold

Notice the

Extra heavy

cast Back Flue. Large Wood Extension and Strong Reservoir Casing.

GLASS OVEN DOOR—The oven door has genuine MacBeth glass which is guaranteed not to break with any quantity of heat. A glass door is a great convenience and a fuel saver. It is convenient because you can look right into the oven any time and see how your pastry baking without disturbing the oven.

FULL TILED HIGH CLOSET—Full tiled back, stout brackets. Polished nickeled new drop door; swing teapot shelves; polished steel body, handsome medallion with mirror, make this large high closet the best ever manufactured.

## ALL STEEL CONTINUOUS BODY

The body of this steel range is made of heavy gauged Wellsville rust-resisting steel with heavy asbestos millboard and steel interlinings, smooth and hard rolled, the most enduring steel known and the most easily kept clean.

**Weight** The Joffre is one of the heaviest ranges built. Every casting is well braced, strong and rigid and the weights here will give you some idea of the kind of material that is used in this grand range.

**Fuel** Metal linings with a combination duplex grate enable you to burn hard coal, soft coal, coke or wood, and do it perfectly. It is equipped with plate top, the best top in existence, and the lids and centers are as heavy as are ever used. They are strengthened and braced so that breaking or warping is an impossibility.

**Grates and Linings** The Joffre Wingold is equipped with the heaviest grates and linings used. They are ventilated so as not to burn out, are rigid, braced and reinforced to prevent warping. Our patent combination duplex grates be removed without touching a single section of the lining.

**Oven** The Oven is square and roomy, equipped with heavy oven shelves and the oven bottom is so well braced as to prevent the possibility of its warping. The oven door is of the drop type, spring balanced, equipped with oven thermometer. No amount of expense has been spared in providing the most perfect type of oven and we guarantee it to be absolutely perfect baker in every respect.

**The Nickel Base** The base is extra large with full nickel front, two legs. Front has wide pressed steel skirting. Is of rich design, no carvings to catch dirt. Your stove is perfectly on this base.

**The Reservoir** has extra large, wide cast front, black enameled cover, heat regulated by damper, has a capacity of 24 quarts. Made of copper.

## THE MODERN HOUSEHOLD STEEL RANGE—A Time Tried and Fire Tested SUPERIOR QUALITY FAMILY RANGE

The Modern Household is positively one of the best Steel Ranges on the market.

It is large, strongly built and a range that will give most satisfactory service. The Body is made of 20 gauge cold rolled steel and lined with heavy asbestos millboard. This style of construction is what peddlers and those fellows asking you to pay \$85 to \$95 talk so much about. If you feel like separating from your money easily, that's your business, but if you want real value for your money when you buy a stove or range you won't let any peddler or local dealer talk you into paying \$85 to \$95 for a stove or range. Should you be tempted, just stop for a moment and order a Wingold Range sent out for comparison. Place it in your home and see just what it will do. That is the best way to tell whether Wingold Stoves are what we represent them to be or not. There are people who look over this catalogue and wonder how it is possible for us to furnish strictly high grade Stoves and Ranges at such low prices. Now, dear readers, if you happen to be one of those persons who think we cannot deliver the right kind of goods, just send us an order subject to our 30 Days' Free Trial Offer, and Satisfy yourself whether we and the goods are right.

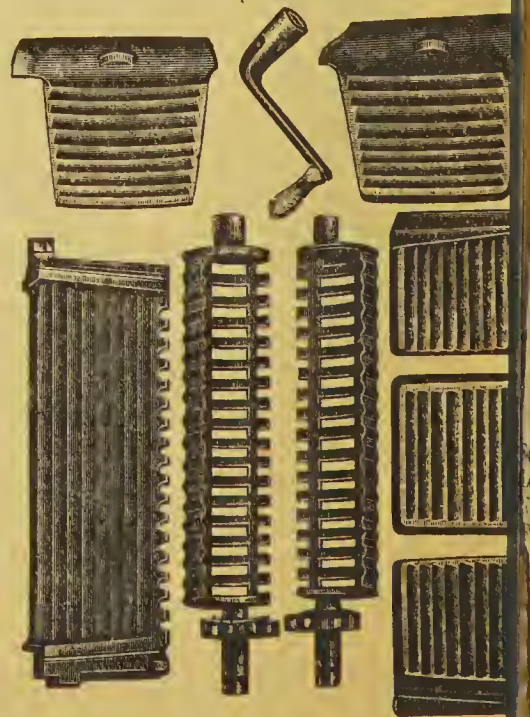

If the readers of this catalogue knew how well Wingold Stoves and Ranges are made, and how much superior they are to the average stove and range sold in the ordinary way, there would be few people indeed who would not send us their orders. We have positively done more to reduce the price of stoves and ranges in Western Canada than all other forces combined. We were the first to go direct to the Consumer at Wholesale Prices and at the very outset sold ranges \$15 to \$25 below any catalogue house or retailer in Western Canada.

**THERE IS NO CHANCE**—no guesswork—in ordering a Wingold Range. It is part of our contract to deliver a better stove or range than any you can obtain elsewhere. We maintain the highest quality and back our products with an unconditional guarantee. You get from Wingold Stoves and Ranges; not satisfaction for a short period only, but years and years of satisfactory service. Every detail is carefully worked out with a view of long life—something that is not considered by those who make cheap price their main object.

SEE OPPOSITE PAGE FOR FURTHER DESCRIPTION.

This shows how the lids and short centers are re-inforced to prevent warping or fire cracking. The upper side is fully polished requires no black leading or polishing.

The life of a steel range depends to a great extent upon the style, construction and the quality of material used in the making of the fire. The illustration above shows the 3 piece back, the left hand lining, the coal end and duplex grate bars. These parts are large, heavy, and are properly ventilated to insure durability. We use this style of construction in the Modern, the Sanitary and the Joffre. The size and weight varying to size of each different range.

# Modern Household Steel Range

One of the finest examples of improved modern range building. Will stand closest investigation as to quality and price. Our famous "Rust-No" Copper Bearing, Wellsville Polished Steel used in its construction. Built to give 365 days service, year in and year out, and will outwear two or three ordinary polished steel ranges. Cannot fail to please you, send us your order.

The MODERN HOUSEHOLD has 6-hole cooking top in the largest size, reservoir, warming closet with tiled back and oven thermometer. Will burn hard (Anthracite) or soft coal, coke or wood perfectly.

Emery ground and polished cooking top. No blacking necessary. Wipe with cloth. White enamel oven door panel. Big, roomy, sure-baking oven. Plain, smooth, sanitary colonial finish leg base.

Enamelled  
Encased  
Reservoir

52.75

Price	Range No.	Size of Lids	Size of Oven, inches			Size of Cook. Top, with Reservoir, inches	Size of Pipe, in.	Average Shipping Weight Lbs.
			Width	Depth	Height			
\$52.75	9-16M	9	16	20	12	46½x29¾	7	560
58.75	9-18M	9	18	20	12	48½x29¾	7	575
61.75	9-20M	9	20	20	12	50½x29¾	7	595

Height, floor to top of Back Guard on Warming Closet, is 60 inches; height, floor to Cooking Top, is 30 inches; length of Fire Box, for Wood, is 24 inches; size of Fire Box, for Coal, is 18x9x8 inches.

EMERY GROUND AND POLISHED COOKING TOP. Needs no blacking or polishing. Is built heavy, strong and reinforced, so as to stand unlimited wear of daily use. There are five Solid Lids, one sectional or three-ring lid. The Key-plate over Fire-box is supported by a strong iron post which prevents any sagging that might occur as the result of constant intense heat.

IRE-BOX IS THE LATEST IMPROVED PATTERN. It is made of the highest grade of cast iron. The fire linings are made in sections. Will outlast all other kinds and can be replaced, a section at a time, when necessary.

UPLEX GRATE is the only grate ever constructed that will permit the use of all kinds of fuel without changing the grate.

IRE-BAKE, BIG CAPACITY OVEN is broad, deep and high. Square type and ventilated. No better baking can be done anywhere. Entire inside of oven is coated with aluminum finish. No dark corners.

PERFECTLY BALANCED DROP OVEN DOOR opens flush with oven bottom, forming convenient shelf on which you can turn heavy pans without lifting. This door is strong and unusually attractive with a wide Nickel Plated Band, inclosing the handsome White Enamel Panel.

OVEN THERMOMETER, which is accurate and durable.

DAMPERS are easy to operate, giving perfect control of the fire.

RESERVOIR CASING is made of the very best cast iron and will not rust out from steam or moisture. This is a very important feature. Reservoir Tank is steel enameled. The tank is removable and holds 6 gallons.

WARMING CLOSET is strong and carefully built, and has the new drop door which opens downward and forms a wide shelf. Warming Closet has Nickel-plated End Brackets and Edge Bands. It is fitted with a joint of 7-inch pipe. Patent check and damper draft.

LEG BASE is built substantial and strong. Front base strip and legs nickel-plated.

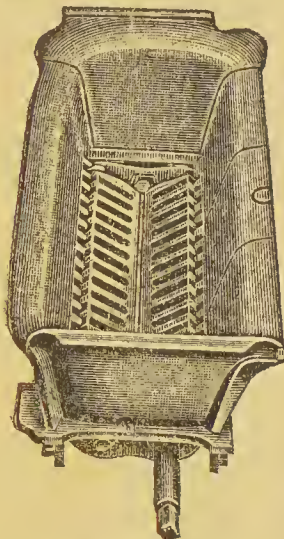

# THE MONARCH WINGOLD

## BLUE POLISHED STEEL RANGE See illustration page 59

THIS MAGNIFICENT STRICTLY MODERN RANGE IS BUILT FOR THOSE WHO WANT THE BEST IF LABOR SAVING AND FUEL SAVING MEANS ANYTHING TO YOU FOLLOW THE ARROWS TO EACH DISTINGUISHING FEATURE OF THE MONARCH WINGOLD AND YOU WILL QUICKLY REALIZE THAT IT IS THE MOST UP-TO-DATE STEEL RANGE MADE. IF YOU INTEND TO PAY \$35 OR \$40 FOR A RANGE WE ADVISE YOU BY ALL MEANS TO GO A TRIFLE HIGHER AND GET THE MONARCH WINGOLD. THIS RANGE IS NOT ONLY CONVENIENT AND HANDSOME BUT IT IS STRONGLY BUILT TO WITHSTAND THE HARDEST KIND OF USAGE.

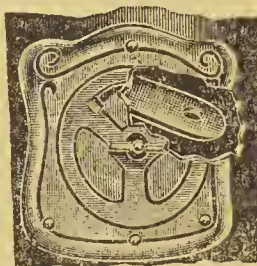

Every detail has been carefully worked out; every known practical improvement has been combined in the building of the MONARCH WINGOLD to make it the most durable, the most convenient, the handsomest in appearance, and the most economical in the consumption of fuel of any steel range on the market today.

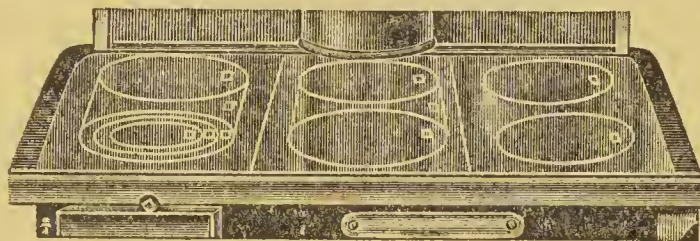

This shows the fire-box for coal in the Monarch Wingold Range. It is large, has extra heavy 3-piece sectional back. When coal ends are removed, takes 24 in. wood.

Bottom of lift up anchor plate and short center, showing reinforcement, which prevents warping or cracking.

Combination check and damper draft, gives you perfect fire control at all times. Saves tons of fuel.

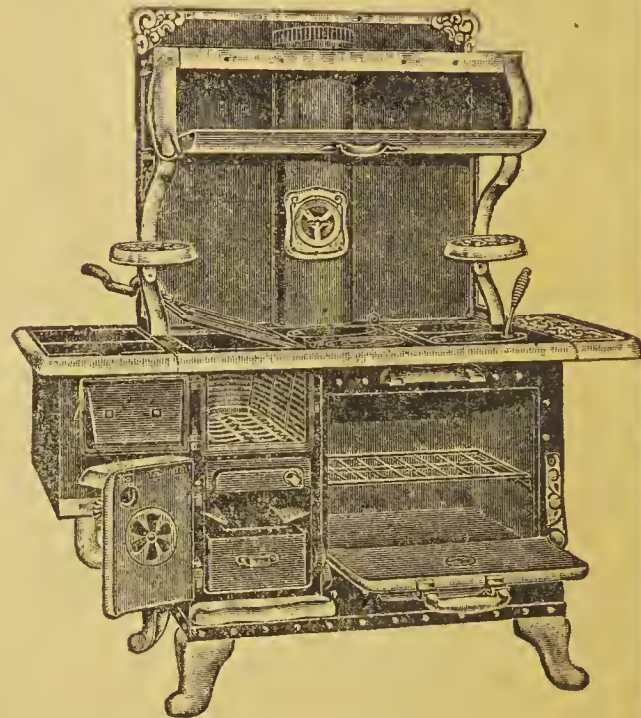

This shows polished top and sectional lid. It is blued to prevent rusting. No polishing or black-leading required.

Heavy wide cast water front to connect up with range boiler, furnishes lots of hot water. Weight 25 lbs.

No. C20—Monarch Water Front .....\$4.50

Looking right into the range showing its construction. detail, notice the wide shelf formed by the drop door big closet. This will accommodate the largest platters. See big deep square oven which bakes quickly and evenly with very little fuel. Notice the reservoir changed to the hand end of range for quick heating. Can be instantly changed back to right hand end without the removal of a nut or screw.

The Wingold Co., Ltd.,  
Winnipeg.

Gents:—Received my goods some two months ago. I was very much satisfied with the quality of the goods and their good condition. I enclose another order which I trust will be as satisfactory.  
Yours very truly,  
J. E. CORY.

Dunblane, Sask., Feb. 16, 1917.

The Wingold Stove Co.,  
Winnipeg.

Dear Sirs:—Re Steel Barrel and Coal Oil shipment received O.K. Thank you for prompt shipment and good goods.  
JAS. SWEENEY,  
Auctioneer.

Wawanesa, Man., Dec. 23, 1916

**The Body** is made of heavy blue polished steel, requires no polishing or black leading, is closely boiler rivetted. Simply wipe the body over with an oily rag occasionally and it will retain its beautiful blue lustre. Extra heavy nickelled legs support the body, raising it about five inches above the floor.

**Cooking Top** is full polished and annealed to prevent rusting. Has six nine-inch lids (one sectional lid furnished free), lift up anchor plate for broiling or toasting and putting in fuel. No black-leading or polishing is required.

**Reversible Copper Reservoir** capacity 12 gallons, furnishes plenty of hot water. Can be instantly changed from one end to the other. This enables you to place your range in the most convenient place in your kitchen. When an unusual quantity of hot water is needed, place the reservoir on the end nearest fire box. Full nickelled End Shelf, fitted with Towel Rod.

**Full Nickled Drop High Closet Door** This is the latest thing in high closet construction. The door drops downward forming a wide shelf large enough to accommodate largest platters. Swing Teapot Stands or brackets, blue steel body, trimming all smoothly silver nickelled and polished.

**The Wood Feed Door** is extra large, will accommodate large size stick. It is lined to

prevent ashes piling inside and falling on the floor; smoothly nickelled. **Ash Pit Door** is high and wide and fitted with screw down smooth pattern, highly polished nickel. Ash Pit is large, stoutly bailed.

**The Fire Box** The life of a steel range depends to a great extent upon the size, style of construction and ventilation of the fire box. It is this part of the Monarch Wingold Range that our experts have given the most careful consideration. We claim perfect fire box, one that is large enough to burn all kinds of fuel, heavy enough in weight to give it durability and economical with fuel. When linings are removed it takes a 24-inch stick. This range will burn hard coal and bake perfectly.

**Duplex Grates** Extra heavy, will not warp or burn. Instantly changed from wood to coal or vice versa.

**Oven** A great big high oven, full 20 inches square, 14 inches high, a perfect baker with any kind of fuel. Results absolutely guaranteed. Extra strong oven door fitted with double catches, self hinged and spring balanced. Full nickelled frame and fitted with safety stops, nickelled medallion, equipped with oven thermometer.

Combination Damper and Check Draft in first length of pipe gives perfect control of the fire at all times.

### PUT THE "MONARCH WINGOLD" THROUGH EVERY KIND OF TEST YOU CAN THINK OF FOR NINETY DAYS

Put a Monarch Wingold through every kind of test you can think of for 90 days; if you are not convinced that it is the greatest value you have ever seen and if it does not more than fulfill every requirement, and if you are not satisfied that you have made a substantial saving in cost, you, return the range to us and get back every dollar you paid, plus freight charges paid by you.

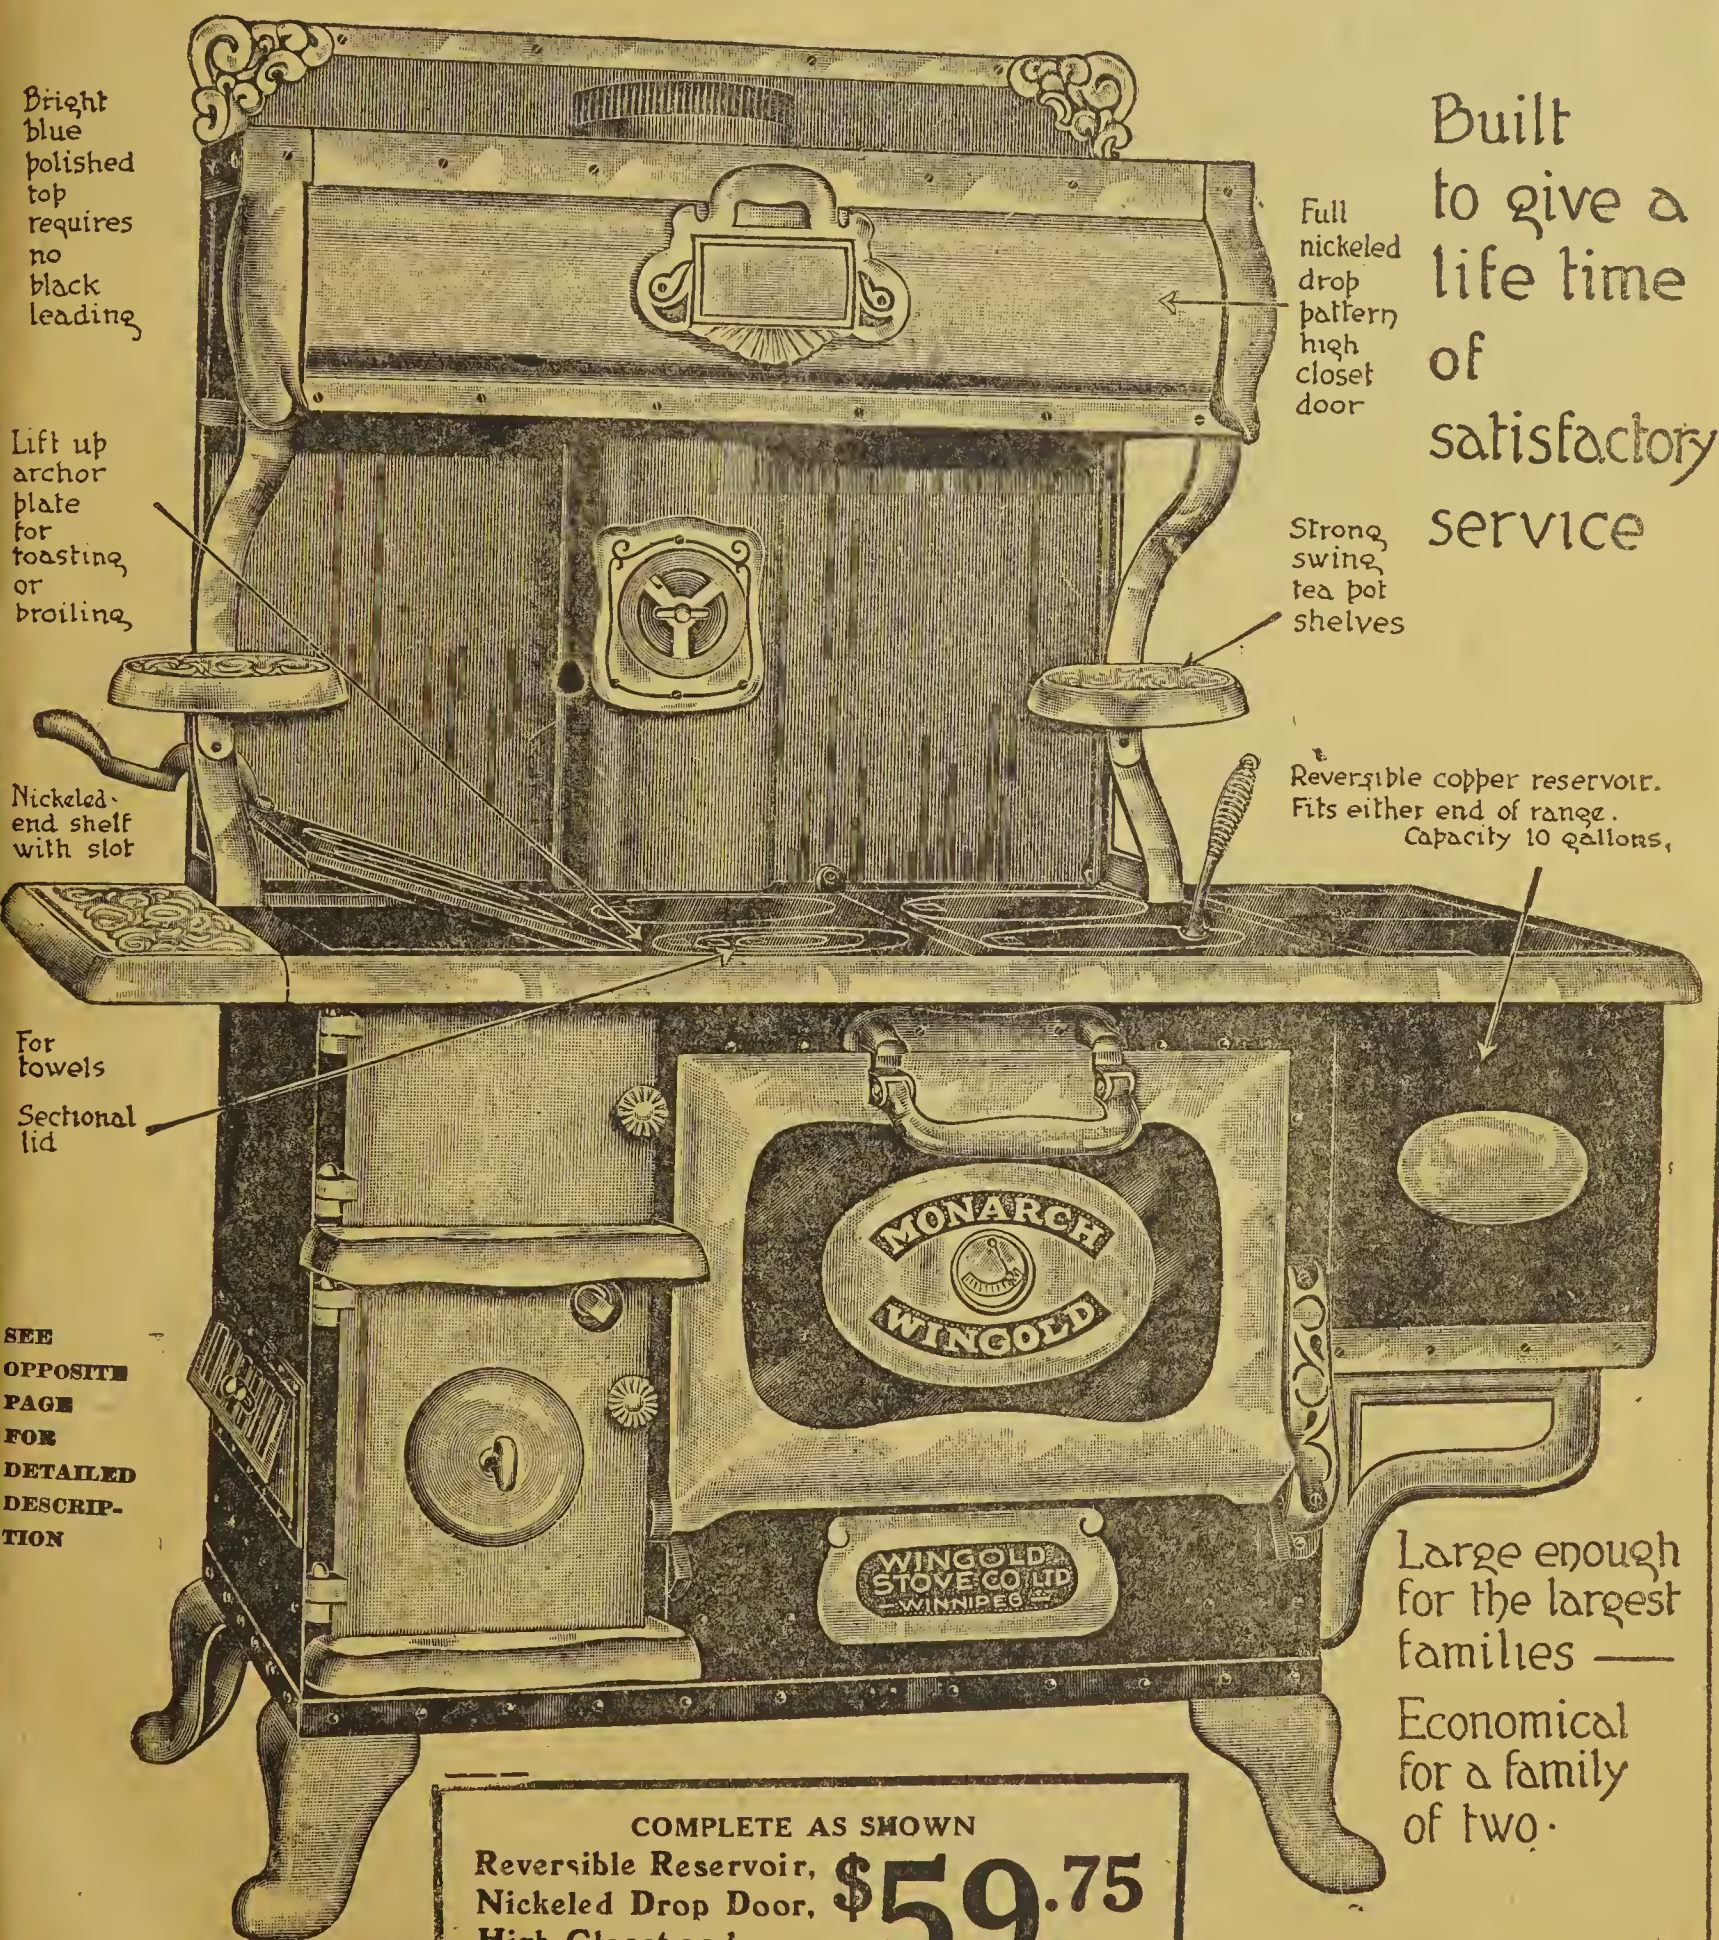

EXTRA HEAVY SMOOTH NICKELED TRIMMINGS, COMPLETE WITH OVEN THERMOMETER  
FURNISHED WITH TILED HIGH CLOSET BACK \$4.25 EXTRA.

CONSIDER WELL ITS ADVANTAGES, then the price, then our 90-day preliminary test. Then send us your order. The results you will obtain from its use will make you a lasting friend of Wingold products and Wingold methods.

Large enough for the largest families — Economical for a family of two.

COMPLETE AS SHOWN  
Reversible Reservoir, Nickered Drop Door, High Closet and Oven Thermometer **\$59.75**

A RANGE WITHOUT A FAULT. For size, strength, convenience, durability and appearance, The Monarch Wingold is in a class by itself. This is not a cheaply built, loosely fitted range, made with a view of making a big show with no regard for durability. BUT A REAL HIGH GRADE RANGE which is Superior in every detail usually sold by dealers at \$75 to \$85. EASIEST RANGE TO KEEP CLEAN YOU EVER HAVE SEEN. All perfectly smooth surfaces, one stroke with a rag and you have a perfectly clean stove. HOURS OF TIME SAVED. No polishing or black leading. Wash the top off occasionally is all that's necessary. It's rust proof. PLENTY OF HOT WATER WHEN YOU NEED IT. The reversible reservoir gives you an abundant supply at all times. By lifting it off the right hand end and putting it on the left end next to fire box, you increase to almost an unlimited capacity. See opposite Page for further particulars.

# GASOLINE, KEROSENE, LUBRICATING OILS AND GREASE

**DON'T GET CAUGHT ON A CHEAP STEEL BARREL—THEY SOON LEAK. Our STEEL BARRELS will stand shipping and WILL NOT LEAK.**

## OILS

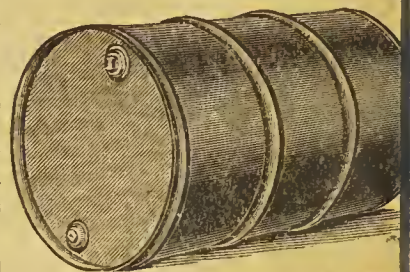

any other part of the tank. The corrugation in centre permits easy rolling when loaded. The brass faucet can be attached to end of barrel to draw off contents. When shipped empty takes 1½ times first class freight; filled with oil takes fourth class rate. Weight 70 pounds. No. V48—Welded Steel Barrel; each . . . . . \$9.50

## BUY A WELDED STEEL BARREL

To Store Your Oil In. You will save enough evaporation and leakage to soon pay for the barrel. Capacity 45

Made of 16 gauge material. Will stand considerable rough handling, wagon hauling, etc. Are far superior to soldered tanks for storing oils. Seams and joints are all welded, making them practically as strong as

Imperial Gal-lons. All weld-eds seams, no solder used. Complete with Brass Faucet and two connec-tions to draw off contents on end.

Save \$1.50.

Order a barrel of oil shipped in a steel barrel and we will allow a discount of \$1.50 on any oil listed on this page except gasoline and engine kerosene. On these items an extra charge is made for wood barrel.

## COAL OILS

The quality of our products will satisfy you. You not only get the benefit of our low prices, but you get the benefit of High Grade Standards.

No. E701—Old Homestead Illuminating Kerosene (Coal Oil)—An excellent quality, several points above government requirements. No charge for barrel. Per 45 gallon barrel . . . . . \$10.75

No. E702—Reliance Brand—one grade higher than Old Homestead. Gives a nice white light without smoking your lamp chimney. Per 45 gallon barrel (no charge for barrel) . . . . . \$11.75

No. E703—Excelsior Brand—Strictly high grade oil, sold in most stores as best grade; gives a steady white light. No charge for barrel. Per 45 gallon barrel . . . . . \$12.75

No. E704—Burnbright Brand—The very highest quality obtainable; gives a steady white light; burns longer and will not smoke chimney like the lower grades. No charge for barrel. Per 45 gallon barrel . . . . . \$13.75

## STEAM CYLINDER OILS

No. E714—High Test Cylinder Oil. A compounded oil made from the finest stock; light in color and adapted to cold weather.

Per barrel . . . . . \$16.50  
8 gallon . . . . . \$4.25  
1-gallon jacket cans, per gallon . . . . . \$0.75

No. E715—Special Cylinder Oil. A compounded oil especially adapted for high steam pressure and threshing engines.

8-gallon case . . . . . \$5.25  
1-gal. cans, per gal . . . \$0.85  
½ barrels, 25 gals. . . \$10.25

## MOTOR GASOLINE

No. E705—Motor Gasoline. A high test gasoline, particularly adapted to gas engines and automobile use. You will save considerable loss due to evaporation if you order gasoline shipped in steel barrels. See price above. An extra charge of \$3.25 will be made for wooden barrels. Wood barrels hold 45 gallons. Per gallon . . . . . 35c

Price Subject to Market Changes.

We will Give You the Lowest Wholesale Price on the day Your Gasoline Order is Received

## MOTOR CYLINDER OILS

Adapted to automobile use and gasoline engines of all kinds.

No. E717—Motor Cylinder Oil—Red in color, high grade; will not ruin engine like some of the cheap compounds. Try a five-gallon can. You will be so well pleased you will not use any other kind.

1-gallon plain tin can . . . . . \$0.75  
8-gallon case . . . . . \$3.75  
½ barrel, 25 gallons . . . . . \$11.25

## THRESHERMEN'S

No. E724—Cup Grease or Hard Oil. This is a very superior article; very different from the kind usually sold for a similar purpose.

10-pound pails . . . . . \$1.25  
25-pound pails . . . . . \$2.50

## HARROW TEETH

Brand New Harrow Teeth for Less Cost than Repointing Old Ones

Crucible Steel Harrow Teeth, like illustration, 9-16 ins. square, with ½ round shank. Length 6½ and 7 inches. State length wanted. No. T27-64—Harrow Teeth, each . . . . . 5½c

## MACHINE OILS

No. E727—No. 1 Castor Machine Oil. A heavy oil, light in color. If you are using castor machine oil, send us your next order, we can save you money.

1 gallon can, per can . . . . . \$0.40  
4 gallon case . . \$2.25 | 8 gallon case . . \$3.50

## CREAM SEPARATOR OIL

No. E719—Cream Separator Oil. We guarantee will not gum. Has just enough lubricating matter to make the separator run very light. This oil will not congeal in cold weather.

1 gallon can, in case . . . . . \$0.40  
4 gallon can, in case . . . . . \$1.60

## HARVESTER OILS

No. E723—For threshing machines, windmills, harvesters, mowers and heavy farm machinery of all kinds. It will not lose its consistency during the cold weather. This is a high grade oil and cheap at the price.

1 gallon plain tin, each . . . . . \$0.40  
4 gallon can in case . . . . . \$1.60

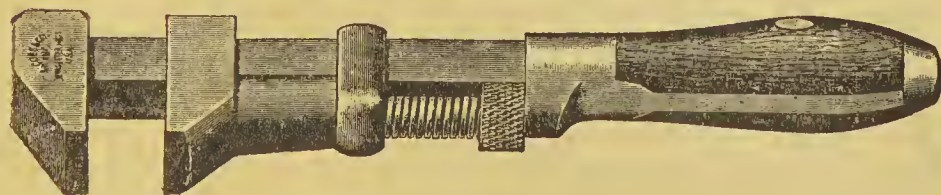

## Summer and Winter Machine Oils

No. E726—Fireproof oil. Black in color. Great lubricating oil. Cannot gum and positively fireproof. The following prices include package:

1 gallon in plain can, each . . . . . \$0.40  
4 gallon can, in case . . . . . \$1.60  
8 gallon can, in case . . . . . \$3.20

# Blandix Gasoline Engines

Never Fail to Make Good

Positively Enduring Economical Service

WINGOLD PRICES DEFY ALL COMPETITION

2<sup>1</sup>/<sub>2</sub> \$57.50  
H.P.

It makes no difference, cheap prices or so-called high quality. There is no engine which can stand up against the Blandix for strength, durability and economy.

The owners of Blandix Engines now NO TROUBLE. Their only care is to keep the Blandix Engine supplied with oil and gasoline.

Blandix Engines will do more than what we claim for them. If you want a real good engine, one which will give you real service, the Blandix is the engine to select.

We guarantee the Blandix equal to any Gasoline engine made. No expense has been spared to make the Blandix the best gasoline engine on the market, size for size. Order the Blandix subject to

## 30 Days Free Trial

offer, and let it demonstrate its ability to do all we claim before you buy.

### SPECIFICATIONS.

**HORIZONTAL**—2<sup>1</sup>/<sub>2</sub> H.P.  
**CYLINDER**—4 Cycle Type  
**BORE**—4 inch  
**STROKE**—5<sup>1</sup>/<sub>2</sub> inch.  
**SPEED**—450 R. P. M.  
**WEIGHT**—400 Pounds  
**WHEELS**—Two wheels 19 in. diameter. Weight 40 lbs. each.  
**MAIN BEARINGS**—Set at an angle of 30 degrees.  
**CRANK SHAFT**—1<sup>1</sup>/<sub>2</sub> in. carefully machined and fitted.

**BABBIT**—Used is best copper hardened.  
**CONNECTING ROD**—Of ample strength—fitted with brass bushing at piston end, and copper hardened babbit at wrist.  
**GOVERNOR**—Is of simple design, hit and miss, of positive action and sensitive. When governor cuts out the charge, it also cuts out the jump spark which increases the life of the battery.  
**CARBURETER**—Of suction type, equipped with needle valve, and automatic air adjustment.  
**SPARK PLUG**—The Never Miss, the best that money can buy.  
**SPARK COIL**—Gives highest efficiency, because of more wire on secondary coil, consequently draws less current.  
**GEARS**—Are machine cut.  
**CYLINDER**—Cast separate from bed. Lugs on the side of cylinder are extra thick to prevent broken cylinders.

**PISTON**—Has three ground rings, carefully fitted to give good compression.  
**AUXILIARY EXHAUST PORT**—In cylinder is a very valuable feature. It relieves the valve of much heat and insures longer life to the engine.  
**VALVES**—Are located in head; of standard poppet type.  
**BATTERY**—Consists of five cells with new style auto connection which will not come loose.  
**CYLINDER OILER**—Is a high grade sight feed cup, easy to adjust and operate.  
**MUFFLER**—Is light, simple and effective.  
**SKIDS**—Hardwood, strong and substantial, on which is mounted engine itself, gasoline tank and battery box.  
**PAINTING**—Is bright and attractive, a good job.  
**THE WHOLE ENGINE**—Is completely set up and wired ready to run when received.

### OUR GUARANTEE

We guarantee every Blandix Gasoline Engine to be equal to any gasoline engine of equal rating selling for one-third to one-half more than our price.

We guarantee them to develop more than their full rated horse power, according to brake test, to last as long, do as much work with as little expense as any gasoline engine made.

We guarantee to take back at the end of thirty days any engine that will not do all that we claim, and we will pay all the transportation charges.

We guarantee to furnish repairs promptly as long as the engine lasts, and will replace at any time absolutely free any parts giving out due to defect in material or workmanship.

### OUR 30 DAYS FREE TRIAL OFFER

We will ship you, on receipt of our catalog price, any engine or outfit you may select and give you thirty days to try it before you decide to keep it.

If you are not perfectly satisfied you can send the engine back and we will send you back your money together with any transportation charges you have paid.

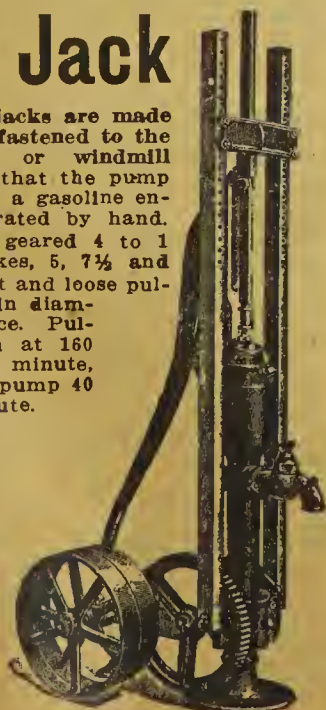

We know the Blandix is all that we claim and are willing to let you try it for thirty days to convince yourself that you cannot buy a better engine even at a much higher price.

## Pump Jack

These pump jacks are made so they can be fastened to the ordinary hand or windmill pump, so that the pump can be run with a gasoline engine or be operated by hand. They are back geared 4 to 1 with three strokes, 5, 7<sup>1</sup>/<sub>2</sub> and 10 inches. Tight and loose pulleys, 13 inches in diameter, 2<sup>1</sup>/<sub>2</sub> inch face. Pulleys should run at 160 revolutions per minute, which runs the pump 40 strokes per minute.

The Jack is a single set of gears and is for light work where the oil is not over 150 feet deep. Shipping weight, 61 pounds. Each \$7.95

Ball Bearing  
Type of Plate Used

## Do you Prefer a Cheap Priced Questionable Product or a High Quality Product Reasonably Priced

A high grade article reasonably priced is a safe investment; a cheap priced, questionable quality article, is only a snare which will eventually disappoint you. WINGOLD'S HARNESS is the highest standard obtainable. You can pay more money but you cannot get better harness. We could cut our prices \$5 to \$10 per set, but we would have to take \$5 to \$10 out of the quality of the material and labor, just the same as others do who offer harness at less than our prices. You Want Satisfaction—you need harness on which you can depend at the critical moment, and if you buy Wingold Harness you will get the kind which stands the test of time at the lowest possible price. Send us your orders, compare the harness we send you with any you can buy elsewhere and if you are not convinced that we have given you greater value in return for the money you paid you can do us no greater favor than return the harness and get back the money you paid, together with freight charges paid by you.

### A Very Popular Type of Farm Team Harness

The quality is the very best and only highest grade, workmanship and material used in the manufacture of this Harness.

You can order this set with the assurance that it will give satisfactory service in every way; in fact, it is guaranteed, and if not found satisfactory it will be your privilege to ship it back to us when we will return the full purchase price and all freight paid. Note the specifications carefully and you will readily see that the general make-up of the harness is the best in every way and particularly well adapted to general farm work.

**BRIDLE**— $\frac{3}{4}$  in. box loop, square blinds, round winker braces, fancy fronts, short flat cheeks.

**LINES**—1 in. x 20 ft. buckles, billets and snaps.

No. HA369—1 1-8 inch, first quality . . . 35c

# "MAJESTIC" Wingold Cream Separators

Don't Tamper with cheap quality when you buy a Cream Separator—Get a "MAJESTIC" WINGOLD, it is the only high grade Cream Separator offered at a reasonable price. IT WILL GIVE CONTINUOUS SATISFACTORY SERVICE YEAR IN AND YEAR OUT. It turns easier, skims faster than most other makes, and is the equal in every way to other machines sold in the retail way at \$100 to \$125 each.

## Superior Points of Construction that you should Study Carefully

The "MAJESTIC" WINGOLD is scientifically designed to prevent weaving or vibrating while running. Its lines are graceful and pleasing and convey the impression of solid strength and durability which is confirmed by an examination of its construction in detail. It is tastefully finished in dark blue with artistic transfer decorations in red and gold, and will be an ornament to the finest sanitary dairy.

- 1.—"Low Down" Supply Tank.—The Tank into which the milk is poured is only as high as the waist. It is of the No Splash pattern, so that, no matter how hastily the milk is poured in there can be no splashing over upon the floor.
- 2.—Crank Shaft is High.—The crank shaft is two inches higher than in most separators. This means that you do not have to bend over so far when turning the crank, as on other machines.
- 3.—Two-piece Bowl Shell.—With a two-piece bowl shell you can clean every corner of it easily, which is not the case in the one-piece bowl shell on other separators.
- 4.—Fewer Discs and Larger Capacity.—Our special construction, perfected after years of study. Consists of 30 per cent. fewer discs than other separators and at the same time a greater capacity per hour.
- 5.—Separable Bowl Spindle.—In all the sizes the driving spindles are detachable and remain in the machine. Bowls are readily lifted off and replaced.
- 6.—All Gears and Bearings Self-Oiled.—The oil chamber provides ample oil for every bearing by means of a splash system caused by the gears running in oil.

## Ten Weeks Free Trial Offer

YOU HAVE TEN WEEKS' TRIAL, which gives you ample time to test this great "MAJESTIC" WINGOLD SEPARATOR in every way. By skimming the morning and evening's milk daily you will surely be able to decide in that length of time whether or not it fully satisfies you. If for any reason you are not satisfied after a fair trial, just send it back and we will at once refund all money paid, together with freight charges you paid. We will also allow you a reasonable amount for reboxing and hauling to the depot, so that you will be at no expense whatever in making the test.

## Our Guarantee of Satisfaction

WE FULLY GUARANTEE THIS MACHINE and allow ten full weeks for trial. We ask you to put it to every test and prove to your own satisfaction that every claim we make for it is true and justified.

Whichever size "MAJESTIC" WINGOLD Cream Separator you buy, we guarantee that you will be satisfied in every way with your purchase. We also stand ready at any time to replace a defective part free of charge or to replace a part worn by usage at lowest possible cost.

WE GUARANTEE THE "MAJESTIC" WINGOLD TO SKIM AS CLOSE OR CLOSER THAN ANY SEPARATOR NOW ON THE MARKET.

## THE BOWL

THE BOWL is the most important part of any Cream Separator, for it does all the work for which a Separator is intended. It is in the bowl, which revolves at a tremendous rate that the separation of the cream from the whole milk takes place. We have the most effective type of bowl that has ever been devised.

The bowl of the "MAJESTIC" WINGOLD possesses many improvements in construction not found in other Separators. Ever part of the skimming surface of each disc does its proportion of the skimming. The whole milk is fed through the centre tube and flows down to the bottom of the bowl. It is then fed equally to every disc at its outer edge so that each disc gets its part of the whole milk, and does equal work in skimming. Thus no idle discs or corners are left, and much better skimming is possible than in the ordinary method of feeding, which gives too much milk to the upper discs and not enough to the lower, consequently the upper discs, being overfed, do not skim clearly, and the cream is lost in the skim milk.

Cream of any density can be obtained, from the heaviest of whipping cream to the thin cream demanded by the city milkmen, by the simple turning of one screw.

## SEPARABLE BOWL SPINDLE

Ninety-five per cent. of all trouble experienced by owners of Cream Separators is found in the Neck Bearing or Bowl Spindle. Our new Separable Bowl Spindle ELIMINATES all possibility of trouble.

The entire Bowl Spindle remains in the machine at all times. To clean the bowl you simply lift it off the Bowl Spindle, and have a short bowl which is easily handled, and if you should accidentally drop it no harm will be done. If you drop a Cream Separator Bowl with spindle attached, nine times out of ten you will find the spindle bent and your bowl out of balance. This means an expense of \$5 or \$10 to get it put into working order again. Further, the bronze worm wheel is often injured by carelessly dropping the bowl with spindle attached to bowl.

LOOK AT THE SECTIONAL VIEW, which shows how the bowl spindle fits up into slot in the center of the bowl. This is the best method of connection, for it is so carefully fitted that it has all the solidity of a solid spindle, which prevents vibration.

Do Not Under Estimate the Value of this Feature. The more you know about Cream Separators the more you will appreciate what this means. Owners of "MAJESTIC" WINGOLD SEPARATORS do not know what trouble is, their only care is keeping the machine cleaned and oiled. It is always there ready to do its full duty at all times.

## ORDER EARLY and MAKE the GREATEST SAVING

The sooner you get your "MAJESTIC" WINGOLD Cream Separator in operation, the sooner will you begin to get the greatest profit from your cows. Remember that immediate delivery of your order for the "MAJESTIC" WINGOLD Cream Separator is guaranteed.

## The Seamless No-Splash

Supply Tanks are our own exclusive pattern and can be obtained in no other separator. They have full rounding sides and a convex bottom, so that milk will not spatter, matter how hastily it is poured in. The top rim of the tank is broad and easily grasped from any position, so lifting handles are unnecessary. Our tanks drain out quickly, are perfectly sanitary and easy to wash.

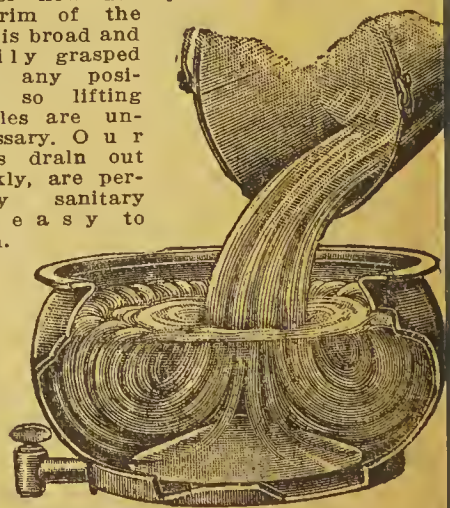

Illustration  
Showing the  
Simple Gear-  
ing Which  
Transmits the  
Power  
Directly  
Downward

Machin  
Cut  
Gears.

The gearing is the most simple it is possible to use. There is nothing to get out of order. The gears are heavy and wide faced,

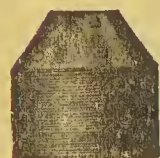

fitted in the latest scientific method, which reduces noise and wear to a minimum. There is no waste energy in the simple arrangement as in many separators. The cog-wheels are carefully covered so that there is no chance to catch and injure the fingers or clothing. The cover can easily be removed.
